VOL. XXVI, NO. 100 GAINESVILLE, FLORIDA, THURSDAY, JUNE 3, 1909 TEN CENTS A WEEK

SENATE REFUSED TO CONSIDER APPROPRIATIONS

Failure to Pass the Measure Would Mean Extra Session at Once---Bills Passed.

TALLAHASSEE, June 2.—With over thirty bills disposed of one way and another, the Senate put in a busy day yesterday.

The inconsistency of some members of the Senate was clearly demonstrated yesterday when, by a majority vote, they refused to take up for consideration the bill providing for an appropriation to carry on the State government for the next two years.

Two more days of the session only remain and it is absolutely necessary that this bill pass. It is extremely important and consideration of it should have commenced as soon as introduced in the Senate.

The Senate put in three good long sessions and held pretty close to the grind.

The general pension bill probably occasioned more debate than any other measure brought up during the day and was finally passed to third reading. It has already been passed by the House.

Jacksonville Charter Bill.

Senator Buckman moved to waive the rules and to place the Jacksonville charter bill on the calendar of bills on third reading without reference to a committee and to read it the second time by title only. The bill was sent to the committee on municipalities.

The Appropriation Bill.

Mr. Harris arose and stated that the Senate had tabled bill No. 467, making appropriations for maintenance of the State government for last six months of 1909, the year 1910 and the first six months of 1911, and that he moved to take up the bill.

Senator Humphries said: "There seems to be a disposition to postpone this bill and to take it up as late as possible. If this bill is not passed a special session will have to be called, and if this is done somebody will be responsible. I've been fighting for some time to take up this bill, and here is the fourth day, and it is held down still. The responsibility must rest where it belongs, and this vote will show it."

Senator Johnson said: "I have gone through this bill, and find that new clerkships have been created and salaries raised, and it will require time to carefully consider this most important bill. There seems to be a disposition on the part of some Senators to control this body. I don't know where this disposition arises, but I will say unequivocally that this kind of practice will mean an extra session and great expense to the State."

Senator Beard said: "I think this bill should be taken up and disposed of. It is important, and it is not right to procrastinate in this important matter."

Roll call for vote showed 14 against and 12 for taking up the bill.

Senator Sams announced that Senator Williams was not in the room, and asked that vote be verified. This was done, and it was shown that Senator Williams did not vote.

The "keeping down" by the Senate of this bill created unfavorable comment. It is most essential that it be given consideration. It appropriates money for the maintenance of the State government. It is a matter where extravagance and leakage may be made possible. Careful considera tion should be given.

The vote for and against taking up the bill was as follows:

Yeas—Adkins, Beard, Buckman, Crill, Dayton, Harris, Henderson, Hosford, Humphries, Johnson, McCreary, Sams—12.

Nays—Mr. President, Messrs. Baker of Twentieth, Broome, Cone, Flournoy, Girardeau, Leggett, Massey, McLeod, McMullen, Miller, West, Williams, Zim—14.

The Senate then proceeded to bills on third reading.

Senate Bill 209, appropriating money for the benefit and maintenance of the Florida State Reform School.

Senator Johnson said: "It is generally known that this institution is a disgrace to the State from one end to the other. I understand there has been gross mismanagement of the institution."

Senator McCreary, in explaining his vote for passage of Senate Bill 209, appropriating money for the benefit and maintenance of the Florida State Reform School, said that every session the school comes forward with a big deficit of appropriation for the institution. He thought the abolishment of the institution would be the proper thing to do as a very unsatisfactory condition now existed.

Senator Sloan favored abolishment of the institution and voted against the bill.

Senator Crill thought the institution should be improved. It was very necessary and afforded relief to the State in a very important direction. He said the children inmates of the institution could not be turned loose on the State. He spoke glowingly of the trustees of the institution.

Senator Humphries said: "It seems to me there is something wrong with the institution somewhere. I have been told by some that the county commissioners in certain counties have been contributing to the maintenance of this institution in addition to the appropriation of the Legislature. I believe this Legislature is going to put itself on record, teaching to these institutions that they must not allow their expenses to exceed the amount of appropriation made by the Legislature.

Senator McLeod said it was due to society to support the bill.

Senator McCreary told of an instance where the institution asked for an appropriation, stating if same was made they would not exceed the appropriation and asked for more money.

Senator Humphries: "I want to say the institution cannot be credited with the one item of clearing over 300 acres of land all at once. This work has been going on for years."

Bill passed, 23 to 6.

Afternoon Session.

Twenty-seven members were present when the Senate was called to order at 3:30 o'clock.

President Hudson announced the appointment of Senators Beard, Flournoy, Henderson, Williams and McMullen on the committee to investigate the Jennings fees.

Among bills on third reading:

Senate Bill No. 170, Sloan—Requiring teaching of elementary principles of agriculture and of civil government in the common schools. Passed.

Senate Bill No. 152, Adkins—Relating to manner of committment to State reform school. Passed, 20 to 3.

Senate Bill No. 349, Withers—Making appropriation for deficiencies in 1907 appropriations, for jurors and witnesses; expenses, collection of revenue and expenses Florida State Troops. Passed.

Senate Bill No. 368, McCreary—Relating to division of counties into road districts. Passed, 9 to 8.

House Bill No. 107, Watford of Holmes—Requiring tax assessors to furnish to boards of public instruction of their respective counties a list showing total amount of special district taxes assessed. Passed.

House Bill No. 71, Roberson of Suwannee, to provide for reinstatement of supreme court docket of any case dismissed on account of defective certificate. Passed, 21 to 3.

Committee substitute requiring proper fire protection in public schools. Passed, 25 to 1.

Senate Bill No. 273, West, relating to cruelty to animals, and to children. Passed.

Senate Bill No. 263, McMullen—Requiring fire insurance companies to deposit $10,000 in cash or security with the State Treasurer. Passed.

Night Session.

Senate Bill No. 468, by Flournoy—Relating to issuance of marriage licenses. Passed, 17 to 7.

Senate Bill No. 336, by Sams—Making it unlawful to own fishing nets or devices where their use is prohibited. Passed.

Senate Bill No. 316, by McCreary—Prescribing method of serving process upon nonresident copartners conducting business in Florida. Passed, 12 to 8.

House Bill No. 403, by Doke of Alachua—To encourage establishment and maintenance of unenclosed game preserves. Passed.

House Bill No. 32, by Register of Hamilton—Making it unlawful to pay poll tax of another. Passed.

Senate Bill No. 282, by Sloan—Prohibiting operation of phosphate mines or sawmills on Sunday. Lost, 11 to 11.

Senate Bill No. 340, by Buckman—To prevent unauthorized taking and use of automobiles. Passed.

Senate Bill No. 313, by Withers—Substituting Secretary of State for Comptroller on Internal Improvement Fund Board of Trustees. Passed, 18 to 6.

House Bill No. 69, by Roberson of Suwannee—Prescribing life imprisonment for kidnapping. Passed.

House Bill No. 225, by Stokes of Escambia—Loan shark bill. Passed, 26 to 1.

Judge Carter's Amendment to the Race Track Bill

TALLAHASSEE, June 2.—Nearly all of yesterday afternoon and last night was taken up by the House in the consideration of the Sloan anti-race track betting bill.

Representative Carter of Alachua delivered a forceful address and held the floor much of the afternoon and evening. He strongly urged that if the bill is to be passed it be amended so as to become effective two years from now. He argued that to make it immediately effective would mean virtual confiscation of thousands of dollars worth of property.

The amendment was adopted.

The House during the day passed the child labor bill.

"FATS" AND "LEANS" TO MEET THIS AFTERNOON

Captain Lynch Answers Dr. Dell and Says His Team Will Win in Walk---The Lineups.

All arrangements have been completed for the great baseball contest that will be pulled off at the ball lot this afternoon at 4 o'clock between the "Fats" and "Leans" and for real fun and pleasure this will be the event of the season.

"Captain" Lynch has a reply to the letter of "Captain" Dell which follows, and as it gives all of the details of what they will do to the boys, we gladly publish it in full.

From "Captain" Lynch.

Editor Sun: The article appearing in yesterday morning's paper from J. Muffum Dell, captain of the "Leans" is, in my opinion, a great reflection on "Captain" Erastus Aninias O'Neill of last year's team, and also on myself inasmuch as he intimates that I would lower myself to the extent of making a deal with the captain of the "Leans." Now it is a well-known fact among all our baseball people that on any occasion the "Fats" can wipe up the earth with any aggregation of lean, hungry, hide-bound would-be ball players that can be gotten together in this vicinity, and we hope that a large crowd will attend the game today and see a game "what is a game," even before the appearance of such an article.

I could not help but feel that the management of the "Leans" would resort to almost anything to defeat the "Fats" and under the circumstances I have not spared time or expense to engage a team that will be ready for any kind of a deal. From the information I have been able to gather my men made excellent records in the various leagues from which they come, with the exception of a few like Faircloth and Taylor, who just insist on playing, whether they are up to the standard or not. Still, owing to their position in financial circles, have concluded to let them play, as I might have occasion to need them later.

As for the umpire, would suggest that he be selected by the audience—then if he is not satisfactory, they can ride him on a rail or do with him as they see fit. I have nothing more to say, except that the "Fats" will win—easy.

The "Fats'" line-up will be as follows,

H. E. Taylor, 3b, formerly of Bankers' League (40 years ago.)

Tom Stevens, ss, John Bull League.

L. Coles, cf., Jewelers' League.

F. Hartsfield, c, Wholesal Grocers' League.

Charlie Faircloth, lf, Phonograph League.

Bill Sprouell, 1b, Plumbers League.

D. Morris, p, Toothache League.

Bob Davis, rf, Legal Light League.

Lou Lynch, Capt. and 2b, Uncle Sam's League.

L. C. LYNCH,
Captain of the "Fats."

The line-up for the "Leans," together with the name of leagues they have graduated from, is as follows:

B. M. Tench, c, Walkover League.

J. M. Dell, Jr., p, Backache League.

Jack Shea, 1b, Linotype League.

A. F. O'Neill, lf, Vegetable League.

J. D. Gardner, 3b, Dry Goods League.

Mr. Torrence, ss, Pencil League.

F. M. Prewitt, 2b, Type League.

C. R. Layton, cf, Legal Light League.

W. E. Baker, rf, Legal Light League.

The admission will be 25 cents.

MELROSE NOTES.

MELROSE, June 2.—The Ice cream sale at the town hall on Friday afternoon was very much patronized. The results are to be used for the purchase of new lights for the Methodist church.

L. M. Baldwin has returned from a business trip to Perry.

Among the visitors in town during the past few days were R. E. Storrs, U. S. Assistant District Attorney, Macon, Ga., L. Carroll, Jacksonville, and W. H. Biggs, county superintendent of schools, Green Cove Springs.

W. E. Baker has gone to White Springs to recuperate for a few days.

A most welcome rainfall of 1.80 inches on Sunday afternoon was much appreciated.

The new motor launch of Arthur Boring came over from Waldo on Sunday. In future it will be located at the dock on Little Lake Santa Fe. It is about 28 feet long, with cabin top, six and a half horse-power gasoline engine and seems to be a very fast boat.

The "Dixie," B. Chamberlain's launch, is giving her owner and his friends many enjoyable trips on the lakes, which are much appreciated by all fortunate enough to be invited and to get a chance to be refreshed by the fine breeze always blowing over the waters.

Will Be No Fine Against the Georgia Railroad

ATLANTA, June 2.—Although under the law the Georgia Railroad could be heavily fined for failure to carry the United States mail for practically an entire week, it is understood the Postoffice Department will assess no penalty against it because of the fact that failure to transport the mails was not a fault of the railroad management. The department, it is stated, believes the management did everything within its power to comply with its contracts, but was prevented from doing so by causes over which it had no control.

There will, however, be deducted from the contract price the percentage covering the time during which the mails were not delivered. This, it is stated, will amount to something like $1,200 to $1,500. There were six days during which no mail was delivered, and at one time there was an accumulation of more than 6,000 pounds for delivery at points on the line of the road.

ANOTHER DAY'S HEAVY VOTING IN CONTEST

MISS LORNA McCREDIE LEADS IN EASTERN AND SOUTHERN.

Miss Hattie English a Close Third With All Parties on Hunt for Votes.

Miss Lorna McCredie of Micanopy again leads in the Eastern and Southern section for one of the handsome pianos to be given in that district, but a number are close behind her and may yet jump to first place, as the contest has only fairly well begun.

Remember that The Sun has made arrangements whereby all parties in the race will get a certificate, and the first five following the winners of the capital prizes will receive a certificate good for $100 which will be accepted as a cash payment on any instrument handled by the A. R. Harper Company.

Many clubs are still coming in. All candidates that desire to work for The Sun can get receipt blanks by applying to this office, and after they have secured a club of ten or more subscribers we will publish their photograph in The Sun provided they furnish us with copy from which to have cut made.

Following is the standing of the candidates as a result of the count yesterday:

YOUNG MEN WANTED.

Manufacturers and Wholesalers the Country Over Want Men, at Salaries Ranging From $2,000 to $10,000.

Why young men prefer a life of drudgery at a small salary to dignified and agreeable work with a large salary is a mystery to those who are going ahead.

Without any previous experience, any young man of ordinary education can become a trained salesman in six weeks.

Traveling salesmen earn from $2,000 to $10,000 a year and expenses, and with the return of prosperity thousands are in demand.

The Bradstreet System has successfully trained thousands of young men by mail in salesmanship, and the president makes this announcement to the readers of The Sun. He says: "I will teach you salesmanship at your home in six weeks, and secure you a position as a traveling salesman with a reliable firm. I have written a book which tells how easy it is for any young man with ambition to succeed as a salesman. This book I will gladly send you free." Write for it today, to the President Bradstreet System, 326 Cornwall Bldg., Rochester, N. Y.

Mr. Taylor to Pittsburg.

W. B. Taylor, of the Baird Hardware Company, will leave today for Pittsburg to attend the annual meeting of the Southern Hardware Jobbers' Association, of which the Baird Company are members. This will be a very large and distinguished gathering and embraces all of the jobbers of the United States, but there are only a few members of Florida and the Baird Company are the only members outside of Jacksonville and Tampa. The program, which is a publication of twenty-four pages, names all of the members and committees, besides dealing with the subjects that will be discussed.

A healthy man is a king in his own right; an unhealthy man is an unhappy slave. Burdock Blood Bitters builds up sound health—keeps you well.

Isn't there something which only a want ad. can do for you today?

THE NEWS FROM ARCHER.

T. A. Duren Elected Mayor—Personal and Social Notes of Interest.

ARCHER, June 2.—Mr. and Mrs. T. B. Pearson left yesterday afternoon for a month's visit to relatives at Leesburg and Bradentown.

Mrs. Emma Hughes and daughter, Miss Grace, left Saturday morning for a couple of months' visit to the former's daughter, Mrs. Hester, at Tampa.

Mrs. A. K. Wilson and children, who have been the guests of her brother, Ed Stewart, at the Magnolia House, left Thursday morning for their home at Fort Pierce.

Mrs. J. T. Fleming, mother of Messrs. S. T. and Guy Fleming, two of our most successful merchants, left yesterday morning for a short visit to her daughter, Mrs. O'Donald is at Jacksonville. Mrs. O'Donald is expected to return home with her mother and will spend several weeks here.

W. J. Groves of Morriston visited our city on business Friday.

Victor Sharpey of Cedar Key was in our midst Saturday.

Mrs. J. H. Butler, who has been the guest of her daughter, Mrs. G. R. Leynes, for several days, left Friday for her home at Hernando.

W. H. Stephens, our popular S. A. L. agent, visited Jacksonville Saturday on important business.

Will Devisne, the competent machinist of the Cummer Lumber Co. at Tioga, was a business visitor here Monday.

Miss Laura Means arrived Monday from Mikesville and will be the charming guest of Rev. and Mrs. H. H. Newman for a few days.

J. B. Dale, the valuable foreman of the Maddox Foundry and Machine Co., visited Jacksonville Sunday and Monday on important business.

Mrs. G. W. Livingston of Newberry arrived here Tuesday to join her husband, who is prospecting the old mines out here.

All the young people of Archer gathered together last evening at the home of Mr. and Mrs. M. Venable and enjoyed an old-fashioned chicken pillau. All report a delightful time, as is always the case when this young couple entertain.

T. A. Duren was elected mayor of Archer yesterday. He is popular in business circles and socially, and we know he will make us a good mayor.

The fire which destroyed the store of C. W. Bauknight Monday morning did not burn the undertaking branch of the business, as it is located in another part of town. The stock that was burned would probably invoice from $12,000 to $15,000. Mr. Bauknight was the oldest merchant in town, having commenced business on April 1st, 1875, this being the first misfortune to have overtaken him. Mr. Bauknight does not know whether he will rebuild or not.

Poor Milk

Is often thought to be responsible for an infant's loss in weight or general poor health. The cause usually is that the child has worms. They get the nourishment of the food and the baby starves, actually starves. White's Cream Vermifuge expels the worms and nourishes the child, sure and safe. Price 25 cents. Sold by W. M. Johnson.

A Fixed Law.

"You are positive this happened on Tuesday?" demanded counsel.

"I am," said the witness.

"Sure it was Tuesday?"

"Yes."

"Why not Thursday or Friday?"

"Because we had chicken that day. Chicken day is Tuesday where I board."—Louisville Courier-Journal.

S.S.S. DRIVES OUT RHEUMATISM

Rheumatism is due to an excess of uric acid, an irritating, inflammatory accumulation, which gets into the circulation because of weak kidneys, constipation, indigestion, and other physical irregularities which are usually considered of no importance. Nothing applied externally can ever reach the seat of this trouble; the most such treatment can do is soothe the pains temporarily; while potash and other mineral medicines really add to the acidity of the blood, and this fluid therefore continually grows more acrid and vitiated. Then instead of nourishing the different muscles and joints, keeping them in a normally supple and elastic condition, it gradually hardens and stiffens them by drying up the natural oils and fluids. Rheumatism can never be cured until the blood is purified. S. S. S. thoroughly cleanses and renovates the circulation by neutralizing the acids and driving the cause from the system. It strengthens and invigorates the blood so that instead of a sour, weak stream, depositing acrid and painful corrosive matter in the muscles, joints and bones, it nourishes the entire body with pure, rich blood and permanently cures Rheumatism. S. S. S. contains no potash, alkali or other harmful mineral, but is made entirely of roots, herbs and barks of great purifying and tonic properties. Book on Rheumatism and any medical advice free to all who write.

KILLED BY EXPLOSION OF CYLINDER HEAD

TWELVE-YEAR-OLD SON OF MILL FOREMAN AT RALEIGH.

Arm Blown Off and Hole Made in Head by Piece of Shattered Iron.

The little twelve-year-old son of Mr. Phillips, the mill foreman for T. J. Cone at Raleigh, met with an accident Tuesday which cost the little fellow his life.

The cylinder head of the large engine used at this plant blew off and the little fellow was standing within about ten feet of the machine and received the effects of the escaping steam and fragments of the broken parts.

One piece of the iron entered his temple and went into the brain, while another struck his arm, tearing it completely away, and the hot steam scalded him so much that he died from the effects of the wounds in the afternoon.

No reason has been assigned as to the cause of the explosion, but the affair is deeply regretted by Mr. Cone and all the employes of the mill. The little fellow was accustomed to staying about the place during his leisure moments and happened to be in this position at the time of the explosion.

Fishing Party to Leave.

The Gainesville fishing party, composed of Captain E. A. O'Neill, F. T. McCormick, B. F. Miller, Major Walker and J. A. Ettel will depart today for Cedar Key and enter a boat for a cruise down the Gulf Coast.

They will be joined the first of next week by J. A. Goodwin and Sam Davis about Bayport and the entire party propose spending two weeks or more on the waters searching for a good time. The trip will be made in a sail boat and Mr O'Neill being a veteran seaman, a good time is assured.

They will fish, eat, sleep and take life easy, and will very doubtless have many interesting "fish stories" to relate upon their return.

The General Demand

of the Well-Informed of the World has always been for a simple, pleasant and efficient liquid laxative remedy of known value, a laxative which physicians could endorse for family use because its component parts are known to them to be wholesome and truly beneficial in effect, acceptable to the system and gentle, yet prompt, in action.

In supplying that demand with its excellent combination of Syrup of Figs and Elixir of Senna, the California Fig Syrup Co. proceeds along ethical lines and relies on the merits of the laxative for its remarkable success.

That is one of many reasons why Syrup of Figs and Elixir of Senna is given the preference by the Well-Informed. To get its beneficial effects always buy the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists. Price fifty cents per bottle.

NEWS FROM WALDO.

Memorial Day Observed—Personal and Social Notes of Interest.

WALDO, June 2.—Conducter A. W. Boring has purchased a gasoline launch and added this feature to his lakeside home on Santa Fe, and it proves quite satisfactory in several trips with parties.

Logan Sullivan, a son of Jack Sullivan, deceased, was brought on a cot from Fairbanks sick of typhoid fever and changed trains here for Bartow, where his mother lives, and who was to meet him at Lakeland. He was cared for by Mr. Powers and Miss Gertrude Bryan.

Wm. Struth, foreman of the railroad shops here, informs us that he had fourteen engines in and out Saturday night and Sunday, and that it required all day and all night work to repair them, and all the force he could muster.

T. K. Godbey is not buying any more sweet potato plants, being able to fill his orders from his own supply, and continues shipping.

Recent rains have broken the long drouth and crops are flourishing. sweet potatoes being planted and all vegetation is rejoicing.

Conductor Horace Ross is out after a long illness and his wife is very ill with the same fever.

Memorial Day was observed by the placing of flowers and flags on the graves of veterans of both the Blue and the Gray. J. L. Stevens, R. C. White and Rev. Wm. Pugh acted as a committee in placing these mementos contributed for the purpose.

Burrell Beasley, a former citizen of this community, died in Tampa a few days ago of ulceration of the glands, at the age of 72. His was a very unusual and painful malady, the glands enlarging in dozens of places all over his body. He died a Christian as he had lived.

Mrs. Joel Weeks, who has been very ill for a long time, has been removed to the home of her son, Orlando Weeks.

A number of lots in the cemetery have been recently cleaned up to the credit of those who have relatives buried there, and much more of such work is badly needed.

N. P. Cauthen has sufficiently recovered from the injury received some months ago at a skidder as to be able to use only one crutch and will dispense with that soon.

Miss Victoria Doane and Miss Effie Pettit arrived from Tallahassee, where the latter has graduated from the State College with first honor. All are congratulating Miss Pettit upon her success and we are proud of the distinction won by her as a Waldo young lady. Miss Doane left for the North on account of the illness of a relative there. Mr. N. C. Pettit, former mayor here, is expected from Tampa in a few days, where he is engaged in a brokerage business.

CHARLES LUTTERLOH DIES FROM WOUNDS

SUFFERED DERANGEMENT AND WAS INJURED DURING TIME.

Former Resident of Gainesville, But at Time of Death Resident of Cedar Key.

News was received here Wednesday of the death of Charles Lutterloh, a former resident of Gainesville, he having attended school here a couple of years ago. He was engaged as book-keeper for his father, J. J. Lutterloh, at Cedar Key up to a short while before his death.

The young man was about 21 years of age, and the manner in which he met his death is a mystery but it can hardly be believed that he was the direct cause of his own death, although indications point to that way.

Sometime during Monday he was stricken with a fit, to which he had been subject for the past few years. While in this state he would act delirium.

About 4 o'clock Tuesday morning Dr. J. F. McKinstry, who was in Cedar Key, was called to attend him and it was found that his neck had been broken and he was stabbed in fifty or more places behind the ears and along the back of the neck—in fact they were so close together that pieces of his flesh had been picked up which were cut from his neck.

While it is the opinion of some that the wounds were self-inflicted, a greater number of people realize that it would have been almost impossible for him to have butchered himself in this manner and think that something further will yet be learned as to the cause.

Although everything was done to prolong his life, he expired late Tuesday evening, never regaining consciousness so he could talk and enlighten anyone as to how he had been cut in such a manner, which completely paralyzed him.

Mr. Lutterloh was a young man, very apt in all his studies while attending school and was a very rapid scholar, always ranking first in his studies and was a recent graduate of Massey's Business College, Jacksonville.

ORANGE HEIGHTS, June 2.—Smith & Johnson bought from R. E. Dashiell of Orange Heights last week fifteen bales of cotton. Mr. Dashiell states that it is the last time he expects to hold any more for higher prices.

RICH RED BLOOD

Means Rosy Cheeks, Clear Complexion, Bright Eyes and Plenty of Energy

What does rich, red blood mean? It means brains, vitality, ambition, hopefulness, persistency, and everything worth living for.

But you can't have rich, red blood, if your digestion is imperfect; and your digestion is certainly imperfect if you have sour stomach, bad taste in mouth, lump of lead after eating, belching of gas and nervous unrest. So far-reaching is the effect of indigestion, that many times the eyesight is affected.

If you have indigestion or any symptoms of stomach distress or agony J. W. McCollum & Co. will sell you a mighty good remedy for 50 cents, and guarantee it to cure or money back.

The remedy is called Mi-o-na. Its powerful, reconstructive action on the stomach is little short of marvelous. It tones up, strengthens and puts new life and energy into the worn out stomach in a few days. It cures by removing the cause. If you are suffering, try a large 50-cent box. It's a small price to pay for banishing indigestion.

Mi-o-na is sold by leading druggists in every town in America, and by J. W. McCollum & Co. in Gainesville, for 50 cents a box.

The City Council should reach an agreement with the Atlantic Coast Line without further delay regarding the alterations upon its passenger station in order that the work can proceed as per order of the Railroad Commission.

Edward Brobston died at his home in Jacksonville Wednesday afternoon from the effects of a complete nervous break-down. Deceased was one of the foremost young men of the city and his death caused deep sorrow among his thousands of friends.

On April 7th the Florida Railroad Commission made an order granting the receivers of the Seaboard Air Line more time in which to construct a new passenger station in Gainesville, but providing that work should begin on the structure within sixty days from date of the order. That time is almost up, but no building in progress yet.

The San Mateo Item announces that it will issue a special illustrated number in the near future containing photographs from all parts of Putnam county—views of groves, gardens, interior of packing houses, etc. The papers of Florida are tireless in their efforts to place the resources and environments of the State before the people of the country.

The Pensacola Journal in advocating the planting of palm thees says: "These trees can be procured and planted at a maximum of $10 per tree. Ten thousand dollars spent for this purpose would mean a thousand palm trees in Pensacola and they would make the city famous." Quite a number of palm trees have been planted in Gainesville this spring. They add adornment to a place such as no other tree can give, and are quickly noticed by visitors.

The Brooksville Southern Argus does not believe in the "dead head subscriber," and says: "We have two reasons for not carrying a free list. One is, we are not financially able to do so, and the other is for the protection of our advertisers. The man who will read a local newspaper addressed to him regularly without paying for it, whether he subscribed for it, or not, might buy goods on credit with no intention of paying for them. It is best to be on the safe side. This proves that every man who is receiving The Southern Argus is considered by us to be an honest man. Otherwise we would not send it to him."

It is said that the American sugar trust has discharged seven of its employes for complicity in defrauding the government. That they did defraud is altogether probable from the evidence furnished, but they had no incentive to do it on their own behalf. They were not enriched by it. No one supposes that they did it as a joke or because they liked to do it. As a matter of fact they were the tools of the trust which alone profited by their dishonesty. For the trust in a Pecksniffian spirit of holy horror to discharge those employes is a discreditable act that will not impose on the public which already has taken its measure. Neither, we imagine, will it deter the government from proceeding with its criminal prosecution of the members of the trust.

EASY STREET.

To the casual observer affairs seem very quiet in Florida at present, and yet probably no storm that ever succeeded a calm had greater reasons for attracting attention than the condition of this State at present has for causing the world to sit up and take notice. Within one short year it is expected a great national highway will be in full operation from Jacksonville to Key West, with a ferry extension that without change of cars will land the traveler in Cuba. This of itself cannot help being a great source of business, for tens of thousands will now desire to see the noted little island.

But another source from which we may reasonably expect a perfect whirlwind of people interested in the growth and progress of Florida is the agricultural possibilities of the State. A most unaccountable ignorance of the capabilities of our soil has prevailed all over the land, and it is only quite recently that real facts have been circulated showing that we have land equal to the best in the whole world, because it will produce more to the acre and with less effort than is required elsewhere. Fortunes being made in a day almost, is creating such a stir as the old Forty-niners experienced when gold was discovered in California. But the revelation of three valuable crops in one season, all in advance of other localities, is really of more value to a community than is the discovery of a gold mine. The one brings a good citizenship, the other a rabble. It is said that every dollar drawn from the Rocky Mountains cost a dollar, but we see men all about us here who a few years ago had nothing in the world save their ability to work; today they are worth their thousands, and there is where the difference is.

It is the duty of every one to let the world know what Florida can do and what she is doing. Further, let the fact be known that now is the time to invest if you wish to be in the crowd of winners. Five years from now you will be astonished at the progress made, and then Mr. Slow-andeasy will say: "If I had only known!" Yes, if he had only been wideawake and used his opportunities he might have lived on Easy street, too.—Times-Union.

CULTIVATION; MOISTURE; FERTILITY.

There is no danger of giving the small corn, peas and cotton plants too much cultivation. Let the work of stirring soil be resumed just as soon as planting is finished. Never allow a crust to form nor troublesome weeds to get started. Stirring the surface just as soon as dry enough after each rain is undoubtedly the surest and best way of preventing crust formation. It is also the very best and most efficient in holding moisture for the use of cultivated crops. The easiest and best time to kill a weed is before it has gotten fixed firmly in the soil.

Weeds which are propogated from seeds only should be destroyed before they are really well through the surface. Those which grow from bulbs, roots and underground stems should be prevented from forming leaves to spread in the light and sunshine if they are ever to be exterminated. Weeds use moisture and plant food which should be turned into the production of valuable crops. The longer a weed or unnecessary plant is allowed to cumber the ground the greater is the amount of moisture and plant food thus consumed and wasted. An old weed is harder to eradicate and destroy than a young and tender one.

A soil crust of one week's standing is more difficult to break and get rid of than the one of one or two days, and at the same time the longer the crust remains the greater will be the amount of moisture thrown off. A crust on the soil interferes with circulation of atmosphere and thereby tends to lock up or render insoluble the natural plant food, thus interfering with nutrition and growth of crops. Delay in giving cultivation when needed simply adds to the injury done.

Cultivate promptly and frequently throughout the entire growing period, to save moisture and plant food, to destroy weeds at the least expenditure of time and energy and to aerate the soil and render available a large portion of the store of natural plant food.—Southern Cotton Journal.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for testimonials. Address,

STATE PRESS COMMENT.

Southern Argus: "The present Legislature, like its predecessor, has refused to re-apportion representation as required by the constitution and common justice. That body took an oath to uphold and obey the constitution. Such a little thing as an oath cannot control the actions of the truly great."

The Czar did but a simple act of justice in pardoning General Stoessel and Rear Admiral Nebagatoff. They were brave men even though not of the highest quality in their calling. Apparently they did the best they could under the circumstances and as they were not responsible for the circumstances their failure was more their misfortune than their fault. Instead of sending them to prison for meeting defeat, the Czar should have punished the grand dukes and others of the bureaucracy who through their grafting and mismanagement were to blame for the deplorable condition of affairs when the war with Japan commenced.

GOT HIS HAIR BACK.

Was Perfectly Bald When He Started to Use Newbro's Herpicide.

Frederick Manuell, Maryland block, Butte, Montana, bought a bottle of Newbro's Herpicide, April 6, '09, and began to use it for entire baldness. The hair follicles in his scalp were not dead and in 20 days he had hair all over his head. On July 2 he writes, "and today my hair is as thick and luxuriant as any one could wish." Newbro's Herpicide works on an old principle and with a new discovery—destroy the cause and you remove the effect. Herpicide destroys the germ that causes dandruff, falling hair, and finally baldness, so that with the cause gone the effect cannot remain. Stops falling hair at once and a new growth starts. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

NEGROES USE KNIVES AT SILVER SPRINGS

TWO GAINESVILLE NEGROES ENGAGE IN A FIGHT

Was Arrested by the Marion County Authorities and Will Be Given a Hearing at Ocala.

Two Gainesville negroes became engaged in a difficulty at Silver Springs Tuesday and as a result both of them are now in the jail at Ocala waiting to stand their preliminary hearing.

James Mulberry and Handy Hughes became engaged in a row which resulted in knife-pulling and Hughes received much the worse of the encounter. His throat was cut from side to side, but fortunately for him the blade was not long enough to reach the windpipe.

As soon as Hughes has sufficiently recovered the prisoners will be given a preliminary hearing before the county judge at Ocala, and it is expected that some of the friends of the darkeys from this city will go down to attend the hearing.

No other rows were reported on the entire trip or at the springs.

Notice.

Notice is hereby given that under and by virtue of a final decree of foreclosure rendered by the Judge of the Circuit Court of the Eighth Judicial Circuit of Florida, on April 9th, 1909, wherein Jones, Maynard & Jones are complainants and J. S. Cameron, defendant, the undersigned Special Master therein named will offer for sale at public outcry, to the highest and best bidder therefor for cash before the court house door at Gainesville, Florida, between the legal hours of sale on Monday, June 7th, 1909, the following described personal property, towit:

Five head cows marked under slope and upper slope in both ears, and 18 head of hogs.

Same to be sold as the property of J. S. Cameron, defendant, to satisfy said decree and costs.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, brick-dust or sediment in the urine, head ache, back ache, lame back, dizziness, sleeplessness, nervousness, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and better health in that organ is obtained quickest by a proper treatment of the kidneys. **Swamp-Root** corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and immediate effect of Swamp-Root, the great kidney remedy is soon realized. It stands the highest because of its remarkable health restoring properties. A trial will convince anyone.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, and don't let a dealer sell you something in place of Swamp-Root—if you do you will be disappointed.

Called the Deal Off.

A lad attending school craved a little holiday one morning when he started out to wrestle once again with the trials incident to getting an education. As he entered the schoolroom he hatched a plot to get the coveted holiday. He went up to the teacher's desk and told his story. "My mother wants to know if you won't excuse me for today?" he began. "She wants me to do some work at home and thought if I'd study at home this evening and make up what I'd missed mebby you'd let me off."

Something about the lad's manner kept the words from carrying conviction. The teacher bluffed back as follows: "Tommy," said she, "you won't need to go home at all. Since you started to school your mother called me on the phone to tell me that she had changed her mind and for you to stay here."

The lad looked at her, startled. "Aw, well," he said, "as long as both of us are lyin' about it let's just call it quits. I'll stay here."—Cleveland Plain Dealer.

A Wealthy Soldier's Idea.

Australians still tell stories of the colonial volunteers, although the war is a far memory. One, a member of the Stock Exchange, was left one wet and miserable night to guard a wagon load of goods. He shivered in the unsheltered place for some hours pondering many things, and then a bright thought struck him just as the colonel came around on his tour of inspection.

"Colonel," he asked, "how much is this wagon worth?"

"I don't know," was the answer. "Much or little, we can't afford to lose it."

"Well, but, colonel," persisted the amateur soldier, "you might give me a rough idea of the value."

"About £200," said the colonel testily.

"Very well," was the answer; "I will come down to the camp and give you a check for the amount. Then I'll turn in. I wouldn't catch my death of cold for twice that much."

What the colonel said is not recorded.—Melbourne Times.

Fourteenth Century Doctors.

Synge's "Social Life in England" quotes a number of fourteenth century hints to success for physicians:

Suppose you know nothing, say there is an obstruction of the liver. Perhaps the patient will say, "Nay, master, it is my head or legs that trouble me." Repeat that it comes from the liver, and especially use the word "obstruction," for patients do not understand it, which is important.

Never dine with a patient who has not paid you. It will be cheaper to get your dinner at an inn, for such feasts are usually deducted from the surgeon's fee.

When you are treating a wound or accident, the friends of the patient should be excluded, for they may faint and cause a disturbance, but sometimes a higher fee may be got from persons present fainting and breaking their heads against wood and the like than from the principal patient.

The Big Head

Is of two kinds—conceit and the big head that comes from a sick headache. Does your head ever feel like a gourd and your brain feel loose and sore? You can cure it in no time by acting on your liver with Ballard's Herbine. Isn't it worth trying for the absolute and certain relief you'll get? Sold by W. M. Johnson.

Carrying a Watch.

"After carrying a watch for thirty years I have just learned something new in watch lore," said the city salesman. "I don't know whether this is true or not, but an old watchmaker told me. I bought a watch of him the other day. It was a cheap watch. He said:

"'What pocket are you going to carry your watch in—the right or left?'

"I told him the left.

"'Then,' said he, 'I will regulate it for the left.'

"I asked what difference it made, and he declared that a watch runs faster on the left side than on the right, so to keep it from gaining time he regulates it accordingly. In the watches the difference is hardly worth considering, but in watches of cheap make the error it is very noticeable. I asked for a scientific reason for this variation. He could give none; said he only knew it was true, and then, whether he was joking or not, he pretended to regulate my watch for the left pocket."—New York Sun.

Chinaware of the Big Hotels.

The only china used at private dinners at the Knickerbocker in New York is the bleue de sevres, which was made in France especially for this hotel, with blue and gold pattern and the monogram of the hotel on the rim of each piece. There are seventy-two pieces to a set, and each piece cost $6. At the Plaza and Astor the cost of each piece is $4 and $5 respectively, and designs are white and gold and plain white with border of asters. Great care has been taken and large expense incurred in obtaining the choicest china for the Waldorf-Astoria. For select private dinners the "crown" set is used, consisting of specimens from the sets of royalty dating from the time of Napoleon to the present. The pattern is a blue and gold border with a picture in the center of each piece of the king and queen to whom that particular piece belonged. The set could not be duplicated for $1,000,000.—Good Housekeeping.

Surprising, What Kodol Will Do

For you, when you need it. But the longer you neglect Indigestion, the more you will suffer before Kodol can restore Good Digestion.

And, of course, indigestion if neglected long enough, brings on serious diseases in which Kodol cannot benefit you. Some of these there is no help for at all.

There are, in fact, very few ailments which cannot be traced directly to impure blood. And impure blood is always due to a disordered stomach.

Use Kodol and prevent Nervous Dyspepsia.

Kodol will effectually assist Nature to secure a complete restoration of good digestion. It does this by at once digesting all food in the stomach and keeping it digested, until the stomach is rested and can resume its own work. Kodol removes the cause—and the effect quickly removes itself.

When it is recalled that Apoplexy, Heart Disease, Cancer—and even Consumption—are due to poor digestion and poisons thus transmitted to the blood, and throughout the system—the importance of maintaining good digestion is at once realized.

We know what Kodol would do before ever the first bottle was sold. If we did not know just what it will do, we would not guarantee it the way we do.

It is easy for you to prove Kodol—the next (or the first) time you have an attack of Indigestion. And you will certainly be surprised at the results. It is perfectly harmless.

There can be no harm in trying something that may do you a great deal of good—when it costs you nothing if it doesn't.

Our Guarantee

Go to your druggist today and get a dollar bottle. Then after you have used the entire contents of the bottle if you can honestly say that it has not done you any good, return the bottle to the druggist and he will refund your money without question or delay. We will then pay the druggist for the bottle. Don't hesitate, all druggists know that our guarantee is good. This offer applies to the large bottle only and to but one in a family. The large bottle contains 2½ times as much as the fifty cent bottle.

Kodol is prepared at the laboratories of E. C. DeWitt & Co., Chicago.

TELEPHONE TALKS

The Long Distance System

One of the most valuable features of our service, to our subscribers and to the public generally, is our connection with the extensive long distance lines of the American Telephone and Telegraph Company and the other associated Bell Telephone companies.

We own thousands of miles of long distance lines in the seven States in which we operate and in addition can connect any telephone in our system with lines extending to any other city in which a Bell Telephone system is operated.

These long distance lines are of the most modern and improved construction and are maintained at a high state of efficiency. The Bell systems operating in various sections of the country, are uniform in their equipment and in their methods of operating.

Only by reason of this close traffic arrangement between the Bell Telephone companies is it possible to go to a Bell Telephone almost anywhere, ask for "Long Distance" and be put in communication with almost any point in the country.

This vast network of wires, radiating throughout the nation, is used daily in commerce and for social purposes by the banker, the farmer and citizens in all walks of life and our plant here is an important link in this great chain.

ANECDOTES OF REYER

The Famous French Composer Was Blunt of Speech.

HE HAD A CAUSTIC TONGUE.

His Biting Wit Was Lavishly Bestowed Upon Those Who Annoyed or Displeased Him—As an Officeholder He Was the Limit of Indifference.

Ernest Reyer, the famous French composer, had a biting wit and a caustic tongue. Fortune frowned on him at the beginning of his musical career and his first opera, "Erostrate," was played only twice. This did not worry Reyer much, although, as he said to the manager, "I had hoped to see it played three times at least." "Erostrate" was rather meanly staged. In the first act the temple of Ephesus was supposed to fall and did not. "I suppose," said Reyer, "that they thought that if the play dropped hard enough the audience would excuse the temple!"

At that time the manager of the opera was a man named Halanzier, who was no musician and whom Reyer disliked. Halanzier had a way of patronizing the composer which made him furious, and he took his revenge one evening in Brussels. "Sigurd," after having had some success in Paris, was played at the Theatre de la Monnaie in Brussels and achieved a triumph. After the first performance Reyer gave a supper, to which he invited Halanzier, who was delighted when the composer, after a speech in his honor, lifted his glass and said, "And now I wish to drink to Halanzier." Halanzier bowed and smiled, and Reyer, without moving a muscle, went on calmly and imperturbably—"to Halanzier, the one manager to whom I owe nothing."

Reyer was playing one of his compositions at a friend's house when a little girl—he hated children—commenced to cry and would not be comforted. "For pity's sake," cried Reyer furiously, "put that child on a chair and sit on her face, one of you!" The crying child became some fifteen years later Mme. Rose Caron, the singer who helped Reyer to the pinnacle of fame.

It was Ernest Reyer who was the original perpetrator of the joke with reference to twins which has been ascribed to so many people. A friend of his had just become the father of two boys and had them brought in to the composer. "Charming," said Ernest Reyer nervously—"charming children," patting their cheeks gingerly with his gloved hand, "delightful children really. Which one are you going to keep?"

When he was appointed librarian to the Paris Opera he took his duties very easily and as a matter of fact scarcely ever went to the opera house. He was fond of telling the story of his first visit to his office. He went to it one evening at dusk six years after he had been appointed. He lost his way and wandered about up and down narrow passages and dark corridors until he ran up against a doorkeeper whom he had passed two or three times already. The man, distrusting the stranger, stopped him and said, "Who are you, and where are you going?" Reyer looked him up and down. "I am the librarian," he said haughtily, "and I am looking for the library!"

One day a young musician called on him with a warm letter of introduction from a mutual friend. Reyer received him and, wincing, asked him to play the two pieces which his friend had recommended. After the first one had been performed the pianist turned expectantly to the composer. "What do you think of that?" he asked. "I prefer the other one," said Reyer, and the young man left without playing it. When he was on the stairs the old composer leaned over the banisters and called to him. "Your future is assured, young man," he said. "You have nearly learned when to stop. But if you had let me off the first piece too"— And, chuckling, he went into his flat again.

Once a young lady sang him the grand air from "Sigurd" and sang it rather badly. "I was so frightened, cher maitre!" she said. "Not nearly as frightened as I was!" was the old man's answer.

On another occasion a lady said to him: "Oh, M. Reyer, when I hear the air of 'Dover to Salammbo' I can positively see you writing it! I can see you in your beautiful home in Provence, between the mountain and the sea drawing inspiration from the sunshine of the south and"— Reyer interrupted her. "There is something the matter with your eyesight, madame," he growled. "When I composed that air I was sitting on the top of an omnibus, smoking a pipe, and it was raining in torrents!"

One more example. A lady who lodged opposite him in the Rue de la Tour d'Auvergne was an ex-pupil of the conservatory, and this, it seemed to her, was the chance of a lifetime. The master could not help hearing her sing, and if he heard her he would be captivated and her future would be assured. So she opened her window and daily sang numbers from his "Salammbo." In due course a messenger knocked at her door. "M. Reyer has heard you," he began, and the singer believed that all her dreams were coming true. "M. Reyer has heard you," the messenger continued, "and he sends his compliments and would esteem it a favor if you would close your windows when you are practicing!"

Dickens' Characters.

Dickens bestowed many of his fictitious names on real flesh and blood personages, says an admirer of the famous novelist. Indeed he and David Copperfield were not far apart, so far as salient features were concerned. Tracy Tupman was the happy counterfeit of a man named Winters, who at the present day would be pounded or arrested for what is known in slang as "mashing." Paul Dombey was an invalid nephew of the author, his right name being Harry Burnett. Dora Copperfield was a Miss Beadnell, with whom Dickens was in love at the early age of eighteen. Mrs. Bardell, who gave Pickwick the worst time in his life, was a scheming boarding house widow named Ann Elliott. Tommy Trueddles was Colonel Procter Ifeurd, formerly superintendent of Indian affairs in Canada. Miss Mowcher was a Miss Wilkes, Mrs. Skewton a Mrs. Campbell; the abominable Squeers was William Shaw; the lovely Cheeryble brothers were cotton spinners and merchants of Manchester; the fat boy was a true to life character, and so was Captain Cuttle, one of the most attractive of all.

What They Make Judges Out Of.

Justice David Brewer of the United States supreme court, during an address before the students of law at the University of Pennsylvania, told them one of the experiences of his judicial career at his own expense.

"It happened I was sitting at one time on a number of cases in which a good friend of mine was interested as counsel, and it also happened that in many of them my decisions were rendered against my friend's clients. One day after the completion of such a case we sat together talking, when a very bashful young man from the rural districts came in to see me bearing a card of introduction to obtain my advice upon the choice of a profession. 'What do you think you want to do?' I asked him. 'I kind of thought I'd better study law,' he replied, 'not that I want to very much, but because I guess I'd like to be a judge. They make judges out of lawyers, don't they?' he asked, somewhat hesitatingly. 'Once in awhile,' my legal friend replied before I could answer. 'Once in awhile they do, but not often.'"—Philadelphia Press.

Getting at the Truth.

At twenty-three he thought fate was making a special effort to keep him down.

At thirty-five he thought he might have done great things if his wife had not been such a handicap.

At forty he believed he would have been a great man if his children had not made it necessary for him to cling to the sure things.

At fifty he was positive that there was a conspiracy against him on the part of his fellow men.

At sixty he felt that if he could have been thirty-five again nothing could have stopped him.

At seventy he began to believe that he had failed because of a lack of courage and inability to make the most of his opportunities.

At eighty he was almost sure of it.—Chicago Record-Herald.

No Man is Stronger Than His Stomach

A strong man is strong all over. No man can be strong who is suffering from weak stomach with its consequent indigestion, or from some other disease of the stomach and its associated organs, which impairs digestion and nutrition. For when the stomach is weak or diseased there is a loss of the nutrition contained in food, which is the source of all physical strength. When a man "doesn't feel just right," when he doesn't sleep well, has an uncomfortable feeling in the stomach after eating, is languid, nervous, irritable and despondent, he is losing the nutrition needed to make strength.

Such a man should use Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition. It enriches the blood, invigorates the liver, strengthens the kidneys, nourishes the nerves, and so GIVES HEALTH AND STRENGTH TO THE WHOLE BODY.

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic medicine of known composition, not even though the urgent dealer may thereby make a little bigger profit. Ingredients printed on wrapper.

ABOUT ADVERTISING—NO. 8

How to Write Retail Advertising Copy

By Herbert Kaufman.

A skilled layer of mosaics works with small fragments of stone—they fit into more places than the *larger* chunks.

The skilled advertiser works with small words—they fit into *more* minds than *big* phrases.

The simpler the language the greater certainty that it will be understood by the *least intelligent reader.*

The construction engineer plans his roadbed where there is a *minimum of grade*—he works along the lines of *least resistance.*

The advertisement which runs into mountainous style is badly surveyed—*all minds are not built for high level thinking.*

Advertising must be simple. When it is tricked out with the jewelry and silks of literary expression it looks as much out of place as a *ball dress at the breakfast table!*

The buying public is only interested in *facts.* People read advertisements to find out *what you have to sell.*

The advertiser who can fire the *most facts* in the shortest time gets the *most returns.* Blank cartridges *make noise but they do not hit*—blank talk, however clever, is only wasted space.

You force your salesmen to keep to solid facts—you don't allow *them* to sell muslin with quotations from Omar or trousers with excerpts from Marie Corelli. You must not tolerate in your *printed selling talk* anything that you are not willing to countenance in *personal salesmanship.*

Cut out clever phrases if they are inserted to the sacrifice of clear explanations—*write copy as you talk.* Only be more brief. Publicity is costlier than conversation—ranging in price downward from $6.00 a line, talk is not cheap but the most expensive commodity in the world.

Sketch in your ad to the stenographer. Then you will be so busy "*saying it*" that you will not have time to bother about the gewgaws of writing. Afterwards take the typewritten manuscript and cut out every word and every line that can be erased without omitting an important detail. What *remains* in the *end* is all that *really counted* in the *beginning.*

Cultivate brevity and simplicity. "Savon Francais" may *look* smarter, but more people will *understand* "French Soap." Sir Isaac Newton's explanation of gravitation covers *six pages*, but the schoolboy's terse and homely "What goes up must come down" clinches the whole thing in *six words.*

GAINESVILLE,

—THE—

University City.

Gainesville is conceded to be the most enterprising as well as the most beautiful city in the interior of Florida. It is located in the very center of the State, half way between the Atlantic and Gulf Coasts, surrounded by lands of such fertility as to be capable of producing a great variety of crops; in the heart of the truck-growing, phosphate and naval stores belt. She has the best educational advantages in the State, good churches, with edifices which are superior to any town of its size in Florida, with large and consistent congregations; has a climate which cannot be excelled for health and pleasure. All these natural advantages, combined with a progressive and enterprising cosmopolitan citizenship, are sure to make a big city.

There are many natural attractions in close proximity to the city, some of which are Alachua Sink, Paine's Prairie, the Devil's Mill Hopper, Warren's Cave, and Lake Newnan, all of which are reached by private conveyance.

Spring Park Stock Farm, the largest and finest live stock farm in the State, is only eight miles west of the city and is reached by a good hard road, affording a most pleasant drive.

The farmers of Alachua county, of which Gainesville is the county seat, "live at home and board at the same place." The temperature is very uniform, scarcely ever reaching the nineties in summer or the twenties in winter. The population of Gainesville is about eight thousand, representing nearly every nationality on the face of the earth, and strangers always meet with a hearty welcome.

The University of Florida for young men and the National Agricultural Experiment Station are located within the corporate limits of the city. In fact, Gainesville has so many things that we must be pardoned if we omit a few of them in the following enumeration of what

Gainesville Has:

One artist.

ECLIPSE OF MOON TONIGHT.

Will Be Seen in This Section and Last for An Hour.

The total eclipse of the moon will occur during this evening and remain totally obscured for about an hour in this section of the country.

This year the moon does not enter into the heart of the earth's shadow, so there will not be a black eclipse. The moon, however, will be in the shadow of the earth for over an hour and practically the only light from the heavens will be that of the stars.

The reason why the moon will be invisible is the influence of the earth's atmosphere, which bends the sun's rays at the edge of illuminated hemispheres of our planet and throws on the moon a faint glow, generally of a red copper hue. It results from the absorption in our atmosphere of the green, blue and violet rays in the sun's light while the red rays pass through it. It is much the same as the sunset glow, though infinitely more faint.

As the phenomenon of the eclipse develops, the children will be able to see for themselves the truth of the statement they learned from their geographies.

Dies in England.

Henry Ramsey of North Gainesville received the sad information Wednesday of the death of his youngest brother, Alfred, which occurred very suddenly on the streets of Ipswich, England, while he was walking in company with his sister. It is supposed that it was caused from heart failure, but Mr. Ramsey doesn't remember of any of the family ever having been afflicted in this manner.

Card of Thanks.

I desire to express to my many friends my highest appreciation for the noble manner in which they stood by me during the contest that has just closed and assure them that I will ever feel under deep and lasting obligations for the substantial manner in which they showed their support on the closing day.

VOL. XXVIII NO. 88 GAINESVILLE, FLORIDA THURSDAY, JUNE 3, 1909 ONE DOLLAR A YEAR

SENATE REFUSED TO CONSIDER APPROPRIATIONS

Failure to Pass the Measure Would Mean Extra Session at Once---Bills Passed.

TALLAHASSEE, June 2.—With over thirty bills disposed of one way and another, the Senate put in a busy day yesterday.

The inconsistency of some members of the Senate was clearly demonstrated yesterday when, by a majority vote, they refused to take up for consideration the bill providing for an appropriation to carry on the State government for the next two years.

Two more days of the session only remain and it is absolutely necessary that this bill pass. It is extremely important and consideration of it should have commenced as soon as introduced in the Senate.

The Senate put in three good long sessions and held pretty close to the grind.

The general pension bill probably occasioned more debate than any other measure brought up during the day and was finally passed to third reading. It has already been passed by the House.

Jacksonville Charter Bill.

Senator Buckman moved to waive the rules and to place the Jacksonville charter bill on the calendar of bills on third reading without reference to a committee and to read it the second time by title only. The bill was sent to the committee on municipalities.

The Appropriation Bill.

Mr. Harris arose and stated that the Senate had tabled bill No. 467, making appropriations for maintenance of the State government for last six months of 1909, the year 1910 and the first six months of 1911, and that he moved to take up the bill.

Senator Humphries said: "There seems to be a disposition to postpone this bill and to take it up as late as possible. If this bill is not passed a special session will have to be called, and if this is done somebody will be responsible. I've been fighting for some time to take up this bill, and here is the fourth day, and it is held down still. The responsibility must rest where it belongs, and this vote will show it."

Senator Johnson said: "I have gone through this bill, and find that new clerkships have been created and salaries raised, and it will require time to carefully consider this most important bill. There seems to be a disposition on the part of some Senators to control this body. I don't know where this disposition arises, but I will say unequivocally that this kind of practice will mean an extra session and great expense to the State."

Senator Beard said: "I think this bill should be taken up and disposed of. It is important, and it is not right to procrastinate in this important matter."

Roll call for vote showed 14 against and 12 for taking up the bill.

Senator Sams announced that Senator Williams was not in the room, and asked that vote be verified. This was done, and it was shown that Senator Williams did not vote.

The "keeping down" by the Senate of this bill created unfavorable comment. It is most essential that it be given consideration. It appropriates money for the maintenance of the State government. It is a matter where extravagance and leakage may be made possible. Careful considera tion should be given.

The vote for and against taking up the bill was as follows:

Yeas—Adkins, Beard, Buckman, Crill, Dayton, Harris, Henderson, Hosford, Humphries, Johnson, McCreary, Sams—12.

Nays—Mr. President, Messrs. Baker of Twentieth, Broome, Cone, Flournoy, Girardeau, Leggett, Massey, McLeod, McMullen, Miller, West, Williams, Zim—14.

The Senate then proceeded to bills on third reading.

Senate Bill 209, appropriating money for the benefit and maintenance of the Florida State Reform School.

Senator Johnson said: "It is generally known that this institution is a disgrace to the State from one end to the other. I understand there has been gross mismanagement of the institution."

Senator McCreary, in explaining his vote for passage of Senate Bill 209, appropriating money for the benefit and maintenance of the Florida State Reform School, said that every session the school comes forward with a big deficit of appropriation for the institution. He thought the abolishment of the institution would be the proper thing to do as a very unsatisfactory condition now existed.

Senator Sloan favored abolishment of the institution and voted against the bill.

Senator Crill thought the institution should be improved. It was very necessary and afforded relief to the State in a very important direction. He said the children inmates of the institution could not be turned loose on the State. He spoke glowingly of the trustees of the institution.

Senator Humphries said: "It seems to me there is something wrong with the institution somewhere. I have been told by some that the county commissioners in certain counties have been contributing to the maintenance of this institution in addition to the appropriation of the Legislature. I believe this Legislature is going to put itself on record, teaching to these institutions that they must not allow their expenses to exceed the amount of appropriation made by the Legislature.

Senator McLeod said it was due to society to support the bill.

Senator McCreary told of an instance where the institution asked for an appropriation, stating if same was made they would not exceed the appropriation and asked for more money.

Senator Humphries: "I want to say the institution cannot be credited with the one item of clearing over 300 acres of land all at once. This work has been going on for years."

Bill passed, 23 to 6.

Afternoon Session.

Twenty-seven members were present when the Senate was called to order at 3:30 o'clock.

President Hudson announced the appointment of Senators Beard, Flournoy, Henderson, Williams and McMullen on the committee to investigate the Jennings fees.

Among bills on third reading:

Senate Bill No. 170, Sloan—Requiring teaching of elementary principles of agriculture and of civil government in the common schools. Passed.

Senate Bill No. 152, Adkins—Relating to manner of committment to State reform school. Passed, 20 to 3.

House Bill No. 27, Pattishall of Hillsborough—Providing for confirmation by judge granting order to sell real estate belonging to infants. Passed.

House Bill No. 58, DuPont—Relating to open profanity. Passed.

House Bill No. 101, Mahaffey—Requiring that all State, county and municipal records shall be open for public inspection always. Passed.

Senate joint resolution No. 250—Cook—For revision of constitution. Lost, 7 to 19.

Senate Bill No. 349, Withers—Making appropriation for deficiencies in 1907 appropriations, for jurors and witnesses; expenses, collection of revenue and expenses Florida State Troops. Passed.

Senate Bill No. 368, McCreary—Relating to division of counties into road districts. Passed, 9 to 8.

House Bill No. 107, Watford of Holmes—Requiring tax assessors to furnish to boards of public instruction of their respective counties a list showing total amount of special district taxes assessed. Passed.

House Bill No. 71, Roberson of Suwannee, to provide for reinstatement of supreme court docket of any case dismissed on account of defective certificate. Passed, 21 to 3.

Committee substitute requiring proper fire protection in public schools. Passed, 25 to 1.

Senate Bill No. 273, West, relating to cruelty to animals, and to children. Passed.

Senate Bill No. 263, McMullen—Requiring fire insurance companies to deposit $10,000 in cash or security with the State Treasurer. Passed.

Night Session.

Senate Bill No. 468, by Flournoy—Relating to issuance of marriage licenses. Passed, 17 to 7.

Senate Bill No. 336, by Sams—Making it unlawful to own fishing nets or devices where their use is prohibited. Passed.

Senate Bill No. 316, by McCreary—Prescribing method of serving process upon nonresident copartners conducting business in Florida. Passed, 12 to 8.

House Bill No. 403, by Doke of Alachua—To encourage establishment and maintenance of unenclosed game preserves. Passed.

House Bill No. 32, by Register of Hamilton—Making it unlawful to pay poll tax of another. Passed.

Senate Bill No. 282, by Sloan—Prohibiting operation of phosphate mines or sawmills on Sunday. Lost, 11 to 11.

Senate Bill No. 340, by Buckman—To prevent unauthorized taking and use of automobiles. Passed.

Senate Bill No. 313, by Withers—Substituting Secretary of State for Comptroller on Internal Improvement Fund Board of Trustees. Passed, 18 to 6.

House Bill No. 69, by Roberson of Suwannee—Prescribing life imprisonment for kidnapping. Passed.

BANNER TRUCKING YEAR IN GAINESVILLE SECTION

Micanopy Shipped First Car of Cantaloupes of Season, Which Netted Growers $450.

The following notes are taken from the current issue of The New York Produce News:

The farmers of Micanopy, Evinston and McIntosh have just finished a banner year in cabbage, lettuce, egg plants and peppers, and are now harvesting their cantaloupes and watermelons. The first carload of cantaloupes was shipped by W. D. Bobbitt & Co. This left Micanopy Monday, May 25, and was consigned to New York, and netted the growers $450. The cantaloupes in this section are particularly good. Most of the growers planted the Netted Rocks.

The watermelons are particularly good and are of large size and very sweet. They are as good as ever raised in this section. Carload shipments will not begin until next week, as growers are waiting until they are fully matured, and by so doing feel they will command a better price.

The cantaloupes are running to a nice size, the vines are healthy and strong and there will be an even yield to the acre from every farm. There are comparatively few buyers in this vicinity and many growers will market their crops direct. A few offers of $225@250 per car for watermelons have been accepted by some of the growers. Buyers who get their melons from this vicinity can rest assured that they will get their money's worth, not only in melons, but in cantaloupes. The cantaloupes are bringing $2@2.50 crate in less than carload lots. Some of the cantaloupe shippers at Micanopy are W. D. Bobbitt & Co. and Joe Smith. Some melon shippers are the Melton Lumber Co., H. R. Stokes, E. E. Slappy and B. E. Harris. Some of the watermelon shippers at Evinston are Shettleworth & Son, Smith Bros., Wood & Evins, and Means & Kennedy.

J. H. Schneider & Co. of New York have purchased a 14-acre tract one mile from Micanopy. A. U. Hilleary is the general manager and has personal supervision. This company is fitting up one of the most complete truck farms in the State, and by next year a large acreage will also be planted to cantaloupes and watermelons. At present they have 75 acres in vegetables.

Citizens have appointed a committee at their own expense to go to Tallahassee to secure the necessary legislation to have the Atlantic Coast Line straighten the track between Gainesville and Ocala, so that Micanopy will be on the main line. At present the railroad runs three miles to the east, where transfer has to be made from Evinston by carriage to Micanopy, or you can get into the town by a spur track, which is very poor service. No doubt the railroad will soon make this change, as it will save five miles of track, making a straighter line and better service and faster time between Ocala and Gainesville, passing directly through Micanopy, and will also open up over a thousand acres of good vegetable land which, no doubt, would otherwise lie idle for years on account of no transportation.

If proper legislation is secured and 1,400 acres more of fine truck land are opened, Micanopy will be one of the leading shipping points in the State. Evinston and McIntosh are already large shipping points. From Evinston in the neighborhood of 300 acres of vegetables were shipped this season. There were 100 cars of cantaloupes shipped during the season. They average $1.50 a crate. There are 150 cars of watermelons to be shipped from this point. From McIntosh, three miles south, during the season there were shipped 20 cars of cabbage, 47 of lettuce, 20 of beans, two of cucumbers, eight of tomatoes and five of miscellaneous vegetables. Five cars of the beans were shipped under refrigeration.

The freight and express charges from Micanopy, Evinston, McIntosh and Simonton are exorbitant. Taking any standard bushel, the freight from Micanopy to Cincinnati is 61c and to Atlanta, a great deal less haul, 67c. The express rate from Evinston to Greenville, S. C., is 90c on a crate of cucumbers, while they will carry the same crate to New York for 80c and to Cincinnati for 66c. J. B. Simonton, who lives here, says: "What a market we could have if the express and freight rates were proportionately arranged. You can take all the small towns in the Carolinas, and even in Georgia, where a large volume of our produce could be shipped, if prices to these points were not a great deal higher than they will carry the same stuff to New York, Philadelphia or Chicago. It practically knocks out all our business in good markets where they want and need the produce, because the grower can ship his produce to these large markets at about two-thirds the rate, and does not stop to figure the price that he gets for it, which is generally about one-third to one-half less than we could get in the small places if the produce was properly distributed and we had reasonable express and freight rates."

J. D. Price of McIntosh shipped two barrels of cucumbers to T. L. Falley of Chester, Pa. They sold for $11 in Chester. Mr. Price's return after paying freight and commission was $2.70. The growers in this section can send two crates of any kind of produce, except cantaloupes, to New York just as cheap in proportion as they can send a car, as there are no carload rates to the East, except on cantaloupes.

Judge Carter's Amendment to the Race Track Bill

TALLAHASSEE, June 2.—Nearly all of yesterday afternoon and last night was taken up by the House in the consideration of the Sloan anti-race track betting bill.

Representative Carter of Alachua delivered a forceful address and held the floor much of the afternoon and evening. He strongly urged that if the bill is to be passed it be amended so as to become effective two years from now. He argued that to make it immediately effective would mean virtual confiscation of thousands of dollars worth of property.

The amendment was adopted.

The House during the day passed the child labor bill.

Changes in Personnel State Board of Control

TALLAHASSEE, June 1.—Governor Gilchrist has appointed Messrs. Francis P. Fleming, Jr., of Jacksonville, P. K. Yonge of Pensacola and W. D. Finlayson of Old Town to be members of the Board of Control, which has charge of the State's institutions for higher education, each for a four years' term, beginning June 28, 1909.

MEMORIAL DAY WAS FITTINGLY OBSERVED

G. A. R. COMRADES PRESENT TO PAY THEIR RESPECTS.

Other Organizations Affiliated With Them in Making Event a Grand Success.

The memorial services of the G. A. R. held in this city on Monday proved among the largest and best attended in a number of years and although this body of citizens are fast passing away, the goodly number left were here for the purpose of paying their respects to the ones that have gone before.

The exercises were most impressive and a large number of ladies met at the band stand and accompanied the old soldiers to the cemetery, where the memorial address was delivered by Col. W. E. Baker and the various graves of the war veterans were kindly remembered with an abundant supply of flowers and plants taken there for this special occasion.

The beautiful ritual service was held at the cemetery, followed by prayer and reading of the address of President Lincoln at Gettysburg by Dr. F. P. Bullock, and closed with the sounding of taps and decoration of the graves, all of the other organizations taking part in these exercises.

Col. A. P. Morrow was master of ceremonies, while Col. I. E. Webster had charge of the musical program.

LOST TWO HORSES.

Were Stolen From Barn Sometime During the Night.

From Tuesday's Daily Sun:

Sometime during late Saturday night or early Sunday morning some thief entered the stables of R. F. Dupree and stole two fine horses and up to a late hour yesterday he had gained no trace of them.

One of the animals was a rather large bay mare, with a white spot on front right foot, while the other was a very small mare pony and only about five years old.

How they managed to thus gain admittance and get the animals without attracting the attention of someone staying in the house or store, both of which are located in front of his lot, is a mystery.

S. A. L. Early Bird Extension.

J. W. Sanders, the successful Early Bird farmer and stockman, was in the city today and said the S. A. L. railroad had let the contract to extend its line 25 miles south of Early Bird to a place called Felica, in Citrus county.

Mr. Sanders said the contract was let to either Mr. Anderson of Dunnellon, or Mr. Marcus of Bartow, and his object here was to become a subcontractor.

The extension will cross the A. C. L. at Rock Springs and pass along the east side of Blue Run and cross the Withlacoochee at its mouth. This extension will run by all the important phosphate mines in that section. —Ocala Star, 29th.

Makes Away With Cash.

From Tuesday's Daily Sun:

J. C. Bellamy, who operates a barber shop at Rochelle, was the victim of a thief who entered his place on Saturday night and got away with all of his cash. The amount was the proceeds of his business for several days and he has some suspicion as to who the guilty party was, but up to the present time no arrest has been made.

THE WIRELESS 'PHONE VISITS GAINESVILLE

LOCATED IN HAYMANS BUILDING FOR TODAY ONLY.

Large Number of Citizens Have Already Been and Admired Its Many Advantages.

From Tuesday's Daily Sun:

The Collins wireless telephone has been established temporarily in the Haymans building, south side square, and the representative, W. G. Simpson, assisted by D. J. Phillips, are here for the purpose of fully explaining the merits of the new invention.

It is really one of the new wonders placed right here for all to see and inspect, all being allowed the privilege of holding conversation over the 'phones through blank space and walls, and will, in time, become a very important factor in the transmission of messages.

The company are now installing a system of the wireless in Portland, Maine, and they have recently been granted a patent from the U. S. Government on an invention to the 'phone which will greatly revolutionize the business.

Communication has already been held successfully over this new 'phone between Philadelphia and New York and the company which have engaged in its sale are now preparing for a circuit all around the Atlantic coast.

These gentlemen who are demonstrating the new invention have been in Tampa and Jacksonville and arrived here on Monday, but will leave this afternoon for Pensacola.

DESTRUCTIVE FIRE OCCURS AT ARCHER

BAUKNIGHT STORE BURNED WITH ENTIRE CONTENTS.

Fire Discovered About 2 A. M. and All of Middle of House Was in Flames.

From Tuesday's Daily Sun:

The store building and its entire contents belonging to C. W. Bauknight at Archer was destroyed by fire at an early hour Monday morning, the loss being about $8,000, with only partial insurance.

The fire is supposed to have been the work of someone, for when it was first discovered the entire center of the main building was enveloped in flames and it was an impossibility to save anything from the ruins.

J. E. Wells, the book-keeper, who rooms overhead the building, in one corner, is said to have barely escaped and saved only his trunk, which contained very little of his wearing apparel, but he did not have sufficient time to get anything together after being awakened by the blaze, which spread rapidly.

From the very quick manner in which the building burned it was very evident that it had been well saturated with oil to get it started, and must have been done about 1:30, but it was nearer 2 o'clock before anyone knew of the flames, and before very many of the citizens could be gotten together it was a mass of ruins.

This business was among the oldest of Archer and Mr. Bauknight had only a few years since constructed a large and commodious store building which he kept filled with all kinds of merchandise, always buying in large quantities.

It has not been learned the exact amount of insurance carried, or whether he intends rebuilding, but being such an old-established business it is thought that he will commence the work of another building within a very short while.

Fortunately the many large shade trees protected the fire from spreading to other sections of the town, and the large Hodgson building, only a very few feet west of the structure burned, was saved in this manner.

President Taft came very near being arrested the other day for picking flowers in the grounds of the Department of Agriculture. Even a President must keep off the grass on Uncle Jimmie Wilson's bailiwick.

NOTHING TO PAY

Hyomei Is Guaranteed to Cure Catarrh or Money Back.

When you suffer horribly from catarrh and are constantly sniffing and snuffing, hawking and spitting, and doing other disgusting things, remember there is a certain cure, called Hyomei (pronounced High-o-me), which is guaranteed to cure.

Hyomei will give joyful relief to any catarrh sufferer in five minutes and it gives remarkable relief to consumptives.

Hyomei is medicated air prepared from the extracts taken from the giant eucalyptus trees of inland Australia, where catarrh or consumption are never known.

You breathe in this healing and antiseptic air through an inhaler and this air, with its peculiar soothing properties, passing over the inflamed and germ-ridden membrane (for catarrh is a germ disease), kills the germ, allays the inflammation, and in a short time completely cures the disease.

A complete Hyomei outfit, which includes a hard rubber inhaler that will last a lifetime, and a bottle of Hyomei, costs only $1.00, extra bottle cost 50 cents. Sold by leading druggists everywhere and in Gainesville by J. W. McCollum & Co., who guarantee it on the money-back plan. plan.

OPERATION HER ONLY CHANCE

Was Cured by Lydia E. Pinkham's Vegetable Compound

Adrian, Ga.—"I suffered untold misery from a female weakness and disease, and I could not stand more than a minute at a time. My doctor said an operation was the only chance I had, and I dreaded it almost as much as death. One day I was reading how other women had been cured by Lydia E. Pinkham's Vegetable Compound, and decided to try it. Before I had taken one bottle I was better, and now I am completely cured."—LENA V. HENRY, Route No. 3, Adrian, Ga.

Why will women take chances with an operation or drag out a sickly, half-hearted existence, missing three-fourths of the joy of living, when they can find health in Lydia E. Pinkham's Vegetable Compound?

For thirty years it has been the standard remedy for female ills, and has cured thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, indigestion, and nervous prostration.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Mrs. Pinkham at Lynn, Mass., for advice. Your letter will be absolutely confidential, and the advice free.

PRISONERS WELL CARED FOR.

Sheriff Ramsey and Assistants Complimented by Wilcox Man.

Editor Sun: I am a novice so far as my knowledge of the conduct of county prisons is concerned. I never had an opportunity of visiting a prison of any description till recently. My impressions of it are that:

1st. The man who has it in charge has a great deal to look after and to think of, the safety of the inmates, what favors, if any, should be shown them, their health, their food, the sanitary conditions of the quarters. Looking over the situation as it exists at the county jail in Gainesville, I have decided that our efficient sheriff, P. G. Ramsey, and his corps of helpers, have the situation well in hand, and have mastered the art of dealing with it on humane principles. The kitchen is as clean as that of the average county home, the food is selected and cooked in about the same way as it would be by the average citizen.

2nd. My impressions of the unfortunate inmates are that nearly all of them would rather be somewhere else. Some manifest indifference, some manifest a forced cheerfulness, while others are in doubt about the outcome of their cases and make no effort to conceal their embarrassment. Upon the whole it is an undesirable place to board at, at any price, at any time. "UNCLE JACK."

WILSON ARRESTED ON SERIOUS CHARGE

WILL PROBABLY BE GIVEN PRELIMINARY HEARING HERE.

Owing to Illness of Justice Dyess of Campville, Rochelle Official Was Summoned in the Matter.

From Tuesday's Daily Sun:

Geo. Jones, a negro sent up from Green Cove Springs for carrying concealed weapons, died at the Campville camps on last Saturday, and L. F. Willson, the "whipping boss," has been arrested charged with being the cause of his death.

J. A. Roberts, justice for the Rochelle district, was called to preside over the inquest and after the jury had heard the evidence they rendered a verdict that death was due to the licks administered by Wilson and the justice came here Monday and had a warrant issued.

Owing to the sickness of B. F. Dyess, the justice of the Campville district, Justice Roberts was called to act in his place.

From Wednesday's Daily Sun:

L. F. Wilson, the "whipping boss" at the Baker convict camps, Campville, was ordered held by County Judge Mason Tuesday under a $1,500 bond for his appearance at the next term of circuit court.

The hearing of this case occupied most of the afternoon and seven witnesses were examined, by the State and defense, the charge against the man being cruel punishment to convicts.

Capt. Baker, who is the lessee and who had the man in his employ, released him upon learning of this trouble.

Wilson is represented by Col. W. S. Broome while the State's interests were looked after by Attorney Rivers of this circuit.

The punishment upon conviction for this offence is a sentence not to exceed ten years' imprisonment or a fine of $5,000, but friends believe that Wilson will come out of the difficulty, claiming that it was not the treatment that caused the prisoner's death.

Wilson has been unable to give bond and as a result is now confined in the county jail.

The Big Head

Is of two kinds—conceit and the big head that comes from a sick headache. Does your head ever feel like a gourd and your brain feel loose and sore? Another Storm South.

Another severe wind storm visited the southern part of Levy county, commencing about Williston and reaching as far south as Dunnellon, on Sunday and did great damage to the lines of the telephone company. They were all repaired during Monday, however.

Everyone would be benefited by taking Foley's Orino Laxative for constipation, stomach and liver trouble, as it sweetens the stomach and breath, gently stimulates the liver and regulates the bowels and is much superior to pills and ordinary laxatives. The defeat of the Pinellas county bill by the Legislature indicates that that body is not disposed to create more than one new county per session.

The number of deaths during the four years of the Civil War was 205,070. During the past four years 800,000 deaths have resulted from tuberculosis alone in the United States.

Edward Brobston died at his home in Jacksonville Wednesday afternoon from the effects of a complete nervous break-down. Deceased was one of the foremost young men of the city and his death caused deep sorrow among his thousands of friends.

Some men, however talented and accomplished, never succeed in life while others no better endowed mentally or educationally win success in everything they take hold of. Perhaps the reason lies in the fact that those who fail have no snap while the others have.

Dr. G. A. Nunnally has resigned the presidency of Columbia College at Lake City and will remove to Rome, Ga., July 1st to accept a chair in Shorter College. Dr. Nunnally was the first and only president Columbia College has ever had and his multitude of Florida friends regret that he has seen fit to sever his relations with the institutions. The resignation has been accepted by the board of trustees.

Governor Gilchrist has appointed officers of Palm Beach county, recently created by the Legislature from a portion of Dade, as recommended by the Democratic executive committee of the new county. The Governor's preference was that the officers be named through a primary, but since the act creating the county will become effective before two primary elections could be held according to the statutes, he had no alternative other than to follow the recommendations of the committee.

The Sun has received a communication from Newberry relative to an article which recently appeared in this paper, requesting its publication, but since no name was signed to the same, and in accordance with the rule of The Sun to withhold from its columns communications without the author's signature attached, we are forced to withhold the same until this rule is complied with. We do not desire name of author for publication if he wishes it withheld, but simply as a matter of good faith.

The news of the settlement of the Georgia Railroad strike was received with pleasure and satisfaction everywhere. For a time it seemed that the differences existing between the railroad and its employes would cause much blood-shed and much disturbance owing to the racial question involved. As it is, much inconvenience and privation was forced upon the people living along the line of the affected road, and it is to be hoped that such differences may be amicably settled in future without the demoralization of business incident to a tie-up of all trains.

THE COMMITTEE'S REPORT.

The committee appointed by the Legislature to visit the various State educational institutions and the State rifle range and arsenal, which was composed of two members of the Senate, Senators Crill and D. H. Baker, and four members of the House, Representatives Page, McKenzie, Terrell and Durrance, has submitted an exhaustive report to that body, with recommendations. That part of the report concerning the University of Florida is as follows:

"Your committee visited the University of Florida, at Gainesville, on May 12 and 13, 1909. We were met at the train by a delegation of the citizens of Gainesville and escorted to the White House, where we spent the night. Early the next morning carriages were placed at our disposal, and with the delegation of citizens we proceeded to the University. Here we met President Sledd and his able body of teachers.

"Although it is only about three years since the University was permanently located at Gainesville, there is an air of contentment and pride that we had hardly expected to find, and it was a pleasure to the committee to observe this; it augurs well for the success of the University. There certainly is no better place in all this Southland, and none laid with broader lines than the University of Florida, and it is only a question of time when our people will with one accord point with pride to their great University.

"The main building is known as Thomas Hall, and it is a brick and concrete structure, three stories in height, and three hundred feet by sixty feet wide. It contains lecture rooms, laboratory, library, assembly hall, dining hall and offices of the University.

"The dormitory, known as Buckman Hall, is a brick and concrete structure of the same style of architecture as the main building; it is three stories in height, and two hundred and forty feet long by sixty feet wide.

"The machinery hall is a brick building sixty feet long by thirty feet wide, in which there is some excellent machinery, and where students are instructed in wood and metal work, drawing, etc.

"The grounds are most delightfully situated. The eastern boundary of the grounds, upon which the University is located, is three-quarters of a mile west of the court house at Gainesville.

"The grounds extend one mile west and contain five hundred and twelve (512) acres of land. The campus is located on eighty (80) acres in the northeast corner of this body of land and is easily accessible to the city, with which it is connected by a well-paved street. The rest of the ground is intended to be used for the Experiment Station and a model farm, and is said by a specialist to be admirably adapted to these purposes. Upon this campus a machinery hall and two modern dormitories have been erected. One of the dormitories is now being used for administrative and class room purposes. The site of the University was given free of cost to the State by the citizens of Gainesville, who also donated to the institution forty thousand dollars ($40,000) in cash, besides agreeing to furnish water to all departments of the University free of charge.

"'The campus has been laid off and the sites for buildings hereafter to be erected staked out so that a definite and harmonious plan may be carried out. This, in our opinion, constitutes a conspicuous advantage over most institutions of learning, for the reason that the campus is large and buildings can be erected without crowding and with a definite purpose in view.' We have quoted from the Board of Control's report, as it clearly places before you the situation.

"The committee was particularly impressed with the broad and comprehensive plans in the work so far accomplished. The two buildings erected are imposing and are planned with greatest care to meet the needs of the University of Florida, and the broad lines under which the work has begun gives bright promise for the future.

"A careful examination of the class rooms was made and we found that in most instances the rooms and laboratories were well supplied with appliances for the proper instruction of the students.

"The rooms in the dormitories are of good size and most excellently arranged for study and sleeping rooms. Everywhere there were seen evidence of homelike surroundings showing that the students were themselves contented, so that their best efforts could be directed to their studies. Everything was in good order in every department, showing that those in charge were giving their attention to the rooms and surroundings essential to the health of the students.

"The foundation laid for the University of Florida is on broad, and at the same time conservative lines, and this committee was particularly impressed and pleased with everything connected with it.

"We have every reason to believe that, now the University location is settled, a large influx of students will be the result. The State has the boys with ambition and pride in State institutions of learning, especially in the University from which they hope to obtain their degree. Once the people of Florida realize that here we have the best, or as good as the best, it will become the pride of all our citizens, and no longer will our boys go to other States for an education that they can obtain at their own University.

"An administration building as well as other buildings, are necessary, and we feel will be provided at an early date.

"We visited every department of the farm, and each member of the committee can say to you that our inspection of the same impressed us with the fact that here we have a piece of land perfectly adapted for the purpose contemplated by the general government, and it needs only for our people to realize the advantages there to be obtained to fill the school to overflowing. The day of haphazard cultivation of the soil is fast passing away and a careful and intelligent husbandry is taking its place. This does not apply to the cultivation of the soil alone, but to every department of farm industry, from the delicious fruits that should grace our table, to every other product that grows to make up the successful farmer and fruit grower.

"All the members of this committee having had more or less experience in farming, stock raising, fruit growing, and other industries on the farm, would again endeavor to impress upon your mind the importance of the work being done at the Experiment Station farm, and we urge each member of the Legislature to arrange to have the experiment bulletin sent your constituents in such numbers as will disseminate through your county the practical results obtained at the station.

"We feel that a great work is being done here which will redound to the good of the State, if you will put your friends and neighbors in touch with the Experiment Station. We therefore recommend that there be appropriated for the State University and Experiment Station the following: For the biennum beginning July 1, 1909, and ending June 30, 1911, $40,000; campus improvements, $5,000; Farmers' Institute, $15,000; total, $60,000."

The appropriation recommended for the State College for Women at Tallahassee amounts to $82,500, for the following purposes: For current expenses, $70,000; campus improvement, $5,000; sanitarium, $7,500.

For the Florida Agricultural and Mechanical College for Negroes the following appropriation is recommended: Current expenses for two years, $10,000; agricultural building and dairy barn, $10,000; infirmary, $5,000—total, $25,000.

For the Deaf, Dumb and Blind Institute at St. Augustine: Current expenses for two years, $40,000; equipment of new building, $8,900; sanitarium, $7,500.

An appropriation of $10,000 is recommended for equipping the State rifle range.

The Legislature adjourns tomorrow.

NEWS FROM WALDO.

Memorial Day Observed—Personal and Social Notes of Interest.

WALDO, June 2.—Conductor A. W. Boring has purchased a gasoline launch and added this feature to his lakeside home on Santa Fe, and it proves quite satisfactory in several trips with parties.

Logan Sullivan, a son of Jack Sullivan, deceased, was brought on a cot from Fairbanks sick of typhoid fever and changed trains here for Bartow, where his mother lives, and who was to meet him at Lakeland. He was cared for by Mr. Powers and Miss Gertrude Bryan.

Wm. Struth, foreman of the railroad shops here, informs us that he had fourteen engines in and out Saturday night and Sunday, and that it required all day and all night work to repair them, and all the force he could muster.

T. K. Godbey is not buying any more sweet potato plants, being able to fill his orders from his own supply, and continues shipping.

Recent rains have broken the long drouth and crops are flourishing, sweet potatoes being planted and all vegetation is rejoicing.

Conductor Horace Ross is out after a long illness and his wife is very ill with the same fever.

Memorial Day was observed by the placing of flowers and flags on the graves of veterans of both the Blue and the Gray. J. L. Stevens, R. C. White and Rev. Wm. Pugh acted as a committee in placing these mementos contributed for the purpose.

Burrell Beasley, a former citizen of this community, died in Tampa a few days ago of ulceration of the glands, at the age of 72. His was a very unusual and painful malady, the glands enlarging in dozens of places all over his body. He died a Christian as he had lived.

Mrs. Joel Weeks, who has been very ill for a long time, has been removed to the home of her son, Orlando Weeks.

A number of lots in the cemetery have b en recently cleaned up to the credit of those who have relatives buried there, and much more of such work is badly needed.

N. P. Cauthen has sufficiently recovered from the injury received some months ago at a skidder as to be able to use only one crutch and will dispense with that soon.

Miss Victoria Doane and Miss Effie Pettit arrived from Tallahassee, where the latter has graduated from the State College with first honor. All are congratulating Miss Pettit upon her success and we are proud of the distinction won by her as a Waldo young lady. Miss Doane left for the North on account of the illness of a relative there. Mr. N. C. Pettit, former mayor here, is expected from Tampa in a few days, where he is engaged in a brokerage business.

Exciting Runaway.

From Wednesday's Daily Sun:

The horse belonging to Dr. T. F. Thomas became frightened last night about 8 o'clock while standing in front of his residence on West Main street and ran down the street until he neared the store of the Gainesville Hardware Company. At this point the buggy was overturned but quickly righted and the animal took to the sidewalk and ran down until he reached Union street, going thence west until he was finally stopped. The buggy was completely demolished, and the animal slightly injured, but no one was hurt. Ralph Thomas had just gotten out of the buggy and gone in the house when the horse became frightened.

Sold Fifteen Bales Cotton.

ORANGE HEIGHTS, June 2.—Smith & Johnson bought from R. E. Dashiell of Orange Heights last week fifteen bales of cotton. Mr. Dashiell states that it is the last time he expects to hold any more for higher prices.

MELROSE NOTES.

MELROSE, June 2.—The ice cream sale at the town hall on Friday afternoon was very much patronized. The results are to be used for the purchase of new lights for the Methodist church.

L. M. Baldwin has returned from a business trip to Perry.

Among the visitors in town during the past few days were R. E. Storrs, U. S. Assistant District Attorney, Macon, Ga., L. Carroll, Jacksonville, and W. H. Biggs, county superintendent of schools, Green Cove Springs.

The new motor launch of Arthur Boring came over from Waldo on Sunday. In future it will be located at the dock on Little Lake Santa Fe. It is about 28 feet long, with cabin top, six and a half horse-power gasoline engine and seems to be a very fast boat.

The "Dixie," B. Chamberlain's launch, is giving her owner and his friends many enjoyable trips on the lakes, which are much appreciated by all fortunate enough to be invited and to get a chance to be refreshed by the fine breeze always blowing over the waters.

Fishing Party to Leave.

The Gainesville fishing party, composed of Captain E. A. O'Neill, F. T. McCormick, B. F. Miller, Major Walker and J. A. Ettel will depart today for Cedar Key and enter a boat for a cruise down the Gulf Coast.

They will be joined the first of next week by J. A. Goodwin and Sam Davis about Bayport and the entire party propose spending two weeks or more on the waters searching for a good time. The trip will be made in a sail boat and Mr. O'Neill being a veteran seaman, a good time is assured.

They will fish, eat, sleep and take life easy, and will very doubtless have many interesting "fish stories" to relate upon their return.

Dies in England.

Henry Ramsey of North Gainesville received the sad information Wednesday of the death of his youngest brother, Alfred, which occurred very suddenly on the streets of Ipswich, England, while he was walking in company with his sister. It is supposed that it was caused from heart failure, but Mr. Ramsey doesn't remember of any of the family ever having been afflicted in this manner.

WESTERN UNION WOULD FIGHT AN INVESTIGATION

To Prevent Further Consumption of Valuable Time Resolution to "Probe" Laid on Table.

TALLAHASSEE, June 7.—The passage of a bill providing for certain changes of the primary election law was possibly the most important action taken by the House yesterday, outside of the failure of an effort to reconsider the vote whereby the Jacksonville charter bill was passed Saturday.

The House spent a busy day, though few bills were acted upon. The effort to call up the bill providing for repeal of a section of the statutes relating to the making and selling of pools at race tracks out of the committee's hands failed and it seems improbable that the measure will pass.

House resolution by Mr. Cash to allow the enrolling clerk such assistance during this last busy week as he shall see fit was passed.

House resolution by Mr. Herdee, stating that since the committee to investigate telegraph franks had never been appointed and that the W. U. T. and stated that they would fight any investigation of their files through the courts, and also pointed out one case in which Mr. Alexander had used a free telegram, he moved that this resolution be adopted. The gentleman accused stated that he had never used a complimentary frank on any telegraph, express, or railway company in his life and that any such accusation was false.

By motion of Mr. Calkins the resolution was laid upon the table, as Mr. Calkins said, to prevent further consumption of valuable time.

House Bill No. 764 was introduced by Epperson, to establish the town of Williston.

Senate Bill No. 63, Harris, to acquire and maintain a sanitorium for treatment of tuberculosis, was called up out of its regular order and passed.

Those Free Passes.

The report of the pass judiciary committee was made to the House. The report declared that since some of the salaried men who seemed to have used passes had denied receiving them, others that they had not used them when received, and others that they were for legitimate service, therefore the committee could take no responsibility of saying who broke the law and who did not, therefore no names were submitted to the House and the report of the committee was received and spread upon the journal, while the communications of denial and explanation were received but not spread upon the journal, thus ending in no man's name connected with passes being put upon the journal at any time.

The Primary Law.

House Bill No. 705, by Mr. Cash of Taylor—An act to require certain sworn statements of campaign expenses from candidates in primary elections, making certain requirements in the form of ballots used in primary elections, requiring certain duties of inspectors in properly identifying persons to whom ballots are given in primary elections, providing for the absenting of employes from their work on primary election days, prohibiting candidates from making donations of things of value, prohibiting persons from distributing certain writing against any candidate in the primary on primary day, providing for compensation of inspectors of the primary in certain cases, prescribing for the violation of primary laws of this State by officials, electors and other persons, prohibiting the use or solicitation of money to influence primary elections, including payment of poll taxes; prohibiting tax collector from receiving poll taxes from persons other than the one owning it, and providing penalties for violation of the primary law by members of committees, inspectors and clerks of primary elections, and for the publication of this act.

The vote was finally taken and the bill passed, 48 to 17. An amendment placing "any" in place of "Democratic" party.

The measure is considered by many to be unconstitutional.

A Resignation.

A resignation as chairman of the committee on miscellaneous legislation was tendered and read to the House by Mr. Malone, giving reasons that he and another member of the committee had failed to agree as to the proper disposition of the bill repealing a section of the statutes relating to the making and selling of pools at race tracks.

Motion by Mr. Taylor to take the bill from the hands of the committee was carried.

Motion by Mr. Stokes to take out of its regular order for second reading was lost, a two-thirds vote being necessary.

Also a motion by Mr. Carn for a special order for the bill today lost by the same vote.

The legislative expense bill being introduced by Mr. Chase, the House adjourned.

CHARLES LUTTERLOH DIES FROM WOUNDS

SUFFERED DERANGEMENT AND WAS INJURED DURING TIME.

Former Resident of Gainesville, But at Time of Death Resident of Cedar Key.

News was received here Wednesday of the death of Charles Lutterloh, a former resident of Gainesville, he having attended school here a couple of years ago. He was engaged as book-keeper for his father, J. B. Lutterloh, at Cedar Key up to a short while before his death.

The young man was about 22 years of age, and the manner in which he met his death is a mystery but it can hardly be believed that he was the direct cause of his own death, although indications point to that way.

Sometime during Monday he was stricken with a fit, to which he had been subject for the past few years. While in this state he would act peculiarly.

About 4 o'clock Tuesday morning Dr. J. F. McKinstry, who was in Cedar Key, was called to attend him and it was found that his neck had been broken and he was stabbed in fifty or more places behind the ears and along the back of the neck—in fact they were so close together that pieces of his flesh had been picked up which were cut from his neck.

While it is the opinion of some that the wounds were self-inflicted, a greater number of people realize that it would have been almost impossible for him to have butchered himself in this manner and think that something further will yet be learned as to the cause.

Although everything was done to prolong his life, he expired late Tuesday evening, never regaining consciousness so he could talk and enlighten anyone as to how he had been cut in such a manner, which completely paralyzed him.

Mr. Lutterloh was a young man, very apt in all his studies while attending school and was a very rapid scholar, always ranking first in his studies and was a recent graduate of Massey's Business College, Jacksonville.

For Twenty-Six Years

Mrs. Lamaster, of Kentucky, Suffered with Internal Catarrh and was Finally Relieved by Peruna.

MRS. W. W. LAMASTER.

"I SUFFERED for twenty-six years with bladder and kidney trouble, and being advised to give Peruna a trial, I did so, and am thankful to say that eight bottles of Peruna and three bottles of Manalin entirely cured me of that trouble, and I am as well as ever."—Mrs. W. W. Lamaster, 3127 McAtee Ave., Louisville, Ky.

Catarrh Causes Kidney Disease.

Catarrh is a frequent cause of kidney disease. The pelvis of the kidneys, as well as the tubules, is lined with mucous membrane, and is therefore subject to catarrhal congestion. Sometimes the catarrh is so slight as to cause no attention. Other times it leads up to very serious conditions.

Any remedy capable of mitigating the catarrh is a much more rational treatment than to give palliatives that only relieve the patient of one or more disagreeable symptoms.

It is claimed for Peruna that it is an internal systemic catarrh remedy, and reaches the catarrh in whatever organ it happens to be located.

"I was cured of a severe attack of inflammation of the bowels by taking Peruna. I am glad to recommend Peruna to any one."—Mrs. J. J. Eross, 553 Water St., San Antonio, Texas.

MELTON IS ENCOURAGED OVER PRESENT OUTLOOK

STATES DEMAND IS INCREASING FOR PRODUCTS OF PINE.

Lumber Is Steadily Advancing in Price and Operators Will Soon Be Running.

From Wednesday's Daily Sun:

C. E. Melton, who is a member of the Georgia-Florida Lumber Association, was here Tuesday and spoke very interestingly of the future outlook for the mill men.

To a Sun reporter he stated that within the past three weeks lumber has advanced from $1 to $3 per thousand, according to grade, and all of the members of the association are of the opinion it will soon return to its former price, before the days of the panic.

When asked about the mills starting operations, he replied that from reports received by him he thought he could safely say that all the mills that were in operation two years ago would soon be running on full time and selling all of their output, as the demand is increasing every day, and the prices are looking up considerably.

Mr. Melton stated that he personally knew of a dozen or more large concerns which have recently began operations again and among the entire number there is not one that is not receiving orders for all of its output, and that within the very near future, in his opinion, they would meet for the purpose of establishing a regular price on all of their timber and better protect their interests.

Very Painful Accident.

Alexander, the little son of Mr. and Mrs. T. M. King, was busily playing in the Express office Tuesday and in some manner pulled down the heavy iron door to one of the safes and got his hand caught, cutting off the ends of two fingers. Dr. DePass was called and dressed the wounded members and is of the opinion that the fingers can be saved. Outside of the wounded member being bandaged, the little man showed no ill-effects from his injury and was playing in the afternoon the same as ever.

ANOTHER DAY'S HEAVY VOTING IN CONTEST

MISS LORNA McCREDIE LEADS IN EASTERN AND SOUTHERN.

Miss Hattie English a Close Third With All Parties on Hunt for Votes.

Miss Lorna McCredie of Micanopy again leads in the Eastern and Southern section for one of the handsome pianos to be given in that district, but a number are close behind her and may yet jump to first place, as the contest has only fairly well begun.

Remember that The Sun has made arrangements whereby all parties in the race will get a certificate, and the first five following the winners of the capital prizes will receive a certificate good for $100 which will be accepted as a cash payment on any instrument handled by the A. R. Harper Company.

Many clubs are still coming in. All candidates that desire to work for The Sun can get receipt blanks by applying to this office, and after they have secured a club of ten or more subscribers we will publish their photograph in The Sun provided they furnish us with copy from which to have cut made.

NEGROES USE KNIVES AT SILVER SPRINGS

TWO GAINESVILLE NEGROES ENGAGE IN A FIGHT

Was Arrested by the Marion County Authorities and Will Be Given a Hearing at Ocala.

Two Gainesville negroes became engaged in a difficulty at Silver Springs Tuesday and as a result both of them are now in the jail at Ocala waiting to stand their preliminary hearing.

James Mulberry and Handy Hughes became engaged in a row which resulted in knife-pulling and Hughes received much the worst of the encounter. His throat was cut from side to side, but fortunately for him the blade was not long enough to reach the wind-pipe.

As soon as Hughes has sufficiently recovered the prisoners will be given a preliminary hearing before the county judge at Ocala, and it is expected that some of the friends of the darkeys from this city will go down to attend the hearing.

No other fows were reported on the entire trip or at the springs.

REPUBLICAN LEADERS UNEASY OVER INCOME TAX

So Greatly Are They Alarmed That They Are Considering Question of Tax on Dividends.

WASHINGTON, May 31.—If the House vote to vote today on the question of an income tax it will be added to the tariff bill. This fact was made known a few days ago to the President by Senators Aldrich and Crane, who are greatly deverted over the situation, although they still hope to induce enough of the progressive Republicans to abandon the idea. It will require three more votes than the leaders can command to send the income tax amendment to the Judiciary Committee, which is the plan proposed by the Republican organization for burying the proposition for this session and probably for such as they control the Senate. The chief objection to an income tax is that it will undermine the protective policy. The amendments proposed by Senators Bailey and Cummins respectively would raise a revenue approximating $70,000,000 a year. So much revenue raised by direct taxation would necessitate the lowering of many of the duties and the extreme protectionists are appalled at such a prospect. On the other hand, they would not dare count so much from incomes and then gather into the treasury the full amount of revenue which the present bill would produce because that would seriously menace the prosperity of the country and encourage an era of extravagance even exceeding that of the last few years.

So greatly are the Republican leaders alarmed at the situation in the Senate that they are seriously considering offering the Taft proposition of a tax on the dividends of corporations as a substitute for the income tax amendment. The former would raise a revenue, it is estimated, of about $20,000,000 and thus obviate to a considerable extent the necessity of lowering the duties all along the line. The Republicans believe that in this way they may be able to head off the income tax advocates. Possibly they can. It remains to be seen.

The oft-repeated question, "What is a Democrat?" seems likely to be presented in a new form and any man who listens to the tariff debate in the Senate for a few hours may well ask himself "Am I a Democrat?" Senator McEnery of Louisiana has just been telling the Senate that the old Democratic doctrine of free raw materials, of tariff for revenue only, etc., is all nonsense and has been begging his party colleagues to vote with him for the highest possible duty on sugar. Senator Bailey says that the pledge in the Democratic platform to repeal the duty on lumber is unwarranted and un-Democratic, and Senator Stone of Missouri says Mr. Bryan has no right to criticise those Democrats who voted for a duty on this are as the "free raw material doctrine has been exploded." Senator Clay of Georgia, on the other hand, says that the duty on sugar is an outrage, that it makes only for increased profits to the sugar trust and that it imposes great additional burden on the consumer. One need not be in the confidence of the members of the House who first propounded the historic question, "Where am I at?" to become confused regarding the party allegiance after listening to these Democratic statesmen for a few hours, and then when he hears Senator Bristow protesting vigorously against the high protective duties which the Republicans are seeking to impose, hears a majority of the Democrats vote to retain the duty on lumber, and learns that President Taft is begging his party colleagues to impose lower duties and "revise the tariff downward" he will indeed be a wise partisan if he can determine to what political camp he belongs.

The President has struck terror to the hearts of many members of the administration who have long relied solely on political influence to retain them in office. He practically demanded the resignation of S. N. D. North, Director of the Census, and has appointed E. Dana Durand, now Deputy Commissioner of Corporations, in his place. Mr. North had behind him no less powerful politicians than Senators Aldrich, Lodge, Crane and Hale and Representative Crumpacker, Olmsted and others, to say nothing of Speaker Cannon. When, just a month ago, it was learned that Mr. North was under investigation his powerful political friends rushed to the White House and told the President "it would never do to drop North." The President said nothing in reply and they came away convinced that they had accomplished their end. Mr. North himself said that the friction was "a thing of the past" and now, as from a clear sky, comes his resignation and the appointment of his successor. Mr. Durand, who succeeds North, has no political influence but is known to be a statistician of exceptional ability and an executive officer of great force and ability.

The President is having considerable difficulty finding the right man to send as Minister to China. He has begged John Hays Hammond to accept it but Mr. Hammond has declined. He wants a shrewd, keen business man, not a diplomat, for the place. Rumor has it that William Nelson Cromwell is under consideration. He was but it was found that his confirmation would be opposed in the Senate and it is doubtful if the President will turn to him again.

Facts for Weak Women

Nine-tenths of all the sickness of women is due to some derangement of the one of the organs distinctly feminine. Such sickness can be cured—is cured every day by

Dr. Pierce's Favorite Prescription

It Makes Weak Women Strong, Sick Women Well.

It acts directly on the organs affected and is a tonic and a powerful restorative used by the whole system. It makes a sick woman a well woman. It makes weak women strong. It makes irregular periods regular. It dries the debilitating drains, stops unnatural losses, cures inflammation, ulceration and female weakness. It makes motherhood easy and makes the baby safe. It is the only medicine for women, sold by druggists, under a positive guarantee, from the makers, that it will give satisfaction in every case, or the money paid for it will be returned.

We shall not particularize here as to the symptoms of those peculiar ailments incident to women, but those wanting full information as to their symptoms and nature of positive cure are referred to the People's Common Sense Medical Adviser—1008 pages, newly revised and up-to-date Edition, sent free on receipt of 21 one-cent stamps to cover cost of mailing only; or, in cloth binding for 31 stamps.

Widow of Late H. B. Plant Died Sunday in New York

NEW YORK, May 31.—Mrs. Margaret J. Plant-Graves, widow of Henry B. Plant, founder of the system of railroad, steamships and hotels in the South, died here yesterday from arterio-sclerosis. She had been ill for more than a year.

Mr. Plant died in 1899 and Mrs. Plant married Robert Graves in 1904. There was a contest over the Plant will, which the widow finally won, and by her death she leaves a fortune estimated at $5,000,000. Her husband and two nephews survive her. Mrs. Plant was well-known for her charitable work. One of her chief donations to this city is the Margaret J. Plant pavilion at St. Luke's Hospital, which cost $500,000. She gave liberally to the Catholic church of which she was a member.

Governor Gilchrist Vetoes Schools Appropriation Bill

TALLAHASSEE, June 1.—Declaring the measure to be unconstitutional in his opinion, Governor Gilchrist has returned to the Senate with his veto, the Leggett bill, appropriating $166,759.80 for the public schools of the State. The bill was for the purpose of relieving counties which paid out large amounts upon their schools in 1908 with the expectation of receiving State aid through 80 per cent attendance averages under the 1907 appropriations.

The Supreme Court knocked that bill out and left the counties in the hole. The present bill was prepared after weeks of investigation, and was believed to have worked around the objections raised by the court. The Governor, however, cites portions which he holds to be unconstitutional.

Legislature Enters Upon Last Week of Session

TALLAHASSEE, May 31.—The passage of the Jacksonville charter bill in the House of Representatives Saturday, after one of the most spectacular fights in the history of the Florida Legislature, proved the main topic of discussion, and hotel lobbies in the State capital presented unusual scenes of liveliness throughout yesterday.

The House refused to reconsider action on the charter bill today by a vote of 32 to 31, and the bill was then certified to the Senate.

Five more days of the session of 1909 remain, and all are apparently anxiously awaiting the ending of a strenuous sixty days of work.

It is believed that very little legislation will be enacted during the five remaining days, as both houses, as has been customary at past sessions, will devote attention to the bill providing for salaries and expenses of the State government for the last six months of 1909, for the year 1910 and for the first six months of 1911, the revenue bill, tax levy bill and pay bill. The Senate will also have to tussle with the occupational tax bill. It is necessary that attention be given these bills, and the major portion of the five days will be devoted thus.

To date there have been introduced 761 House bills and 505 Senate bills, as against approximately 600 House and something less than 500 Senate bills during the entire 1907 session.

Comparatively few bills affecting the State as a whole have passed, most of those passing being of a local character.

A resolution, so it is understood, will be introduced in both houses today, providing for adjournment of the 1909 session at noon Friday.

For many sessions up to last sessions adjournment at noon was the custom. Last session, however, the Legislature adjourned at 8 p. m.

In the Senate on Saturday the passage of the Humphries State prison farm bill and the killing of the bill by Mr. McCreary for county uniformity of school text-books were the principal measures disposed of. The McCreary school book bill was lost by a vote of 14 to 11.

There was considerable discussion during this morning's session, and as a result there was not so large a number passed. Five bills passed and two killed was the crop for the day.

MAYOR'S COURT TUESDAY.

Manuel Johnson Fined $25 for Selling Whiskey in City.

Manuel Johnson, who was arrested charged with selling booze in the city about three weeks since, plead guilty before Mayor Davis Tuesday and was given $25 and costs, which was paid.

Friday Williams was fined $5 and costs for being drunk and disorderly.

THIRTY-TWO MEET DEATH FROM TORNADO IN TEXAS

Storm Was Only Three Hundred Yards Wide---Children Were Blown Miles Away.

BROWNWOOD, TEX., May 31.—A tornado of great fury struck the little village of Zephyr, in the eastern portion of Brown county, at 1 o'clock Sunday morning and left a path of death and destruction seldom paralleled. The death list has reached a total of thirty-two and the number of seriously and fatally wounded will reach fifty.

The dead:

T. T. Cabler, county attorney of Brownwood.

Mrs. T. T. Cabler and two children, 18 years old, and infant, of Brownwood.

Mrs. Artie Hart, 37 years old, and son, Robert, 6 years old, of Zephyr.

Miss Gertie Hustone, 25 Zephyr.

Gibbs Cloyce, 2 years old, son of Prof. Cloyce, Zephyr.

Oscar Ware, 45, Zephyr, and two sons, Harry and Frank.

W. G. Simmons, wife and two children, Miss Bertie, 24 and West, 12, Zephyr.

B. F. Brown and wife, Zephyr.

W. A. Ramsey, 50, and son, Ollie, 13, Zephyr.

C. M. Carter, 40, and wife, 35, a son, Glover, 12, and 3-year-old infant, Zephyr.

Capt. Collins, 30, Zephyr.

Ruby Campbell, 3, Zephyr.

Rodney Campbell, infant, Zephyr.

These latter the children of Mrs. Bob Campbell.

Many others, to a total of seventy-four, have minor hurts.

The storm formed half a mile southwest of Zephyr and swept down upon the village, cutting a wide swath directly through the residence and business district.

Nearly fifty houses were entirely demolished. Lightning struck a lumber yard and started a conflagration which destroyed one entire business block. No effort was made to fight the fire, as the care of the dead and wounded victims demanded all attention.

A section hand rode a hand-car to Brownwood and spread the alarm.

In two hours the Santa Fe railroad was speeding a special train to the scene of the storm with nine surgeons and a score of Brownwood physicians.

Hundreds of persons directly in the storm's path saved themselves by taking refuge in storm cellars. More than a dozen bodies were horribly mutilated.

County Clerk Thad Cabler, his wife and two children, who had gone to Zephyr to spend the night, were killed. The big stone school building and two churches were swept from the face of the earth. By daylight sixteen surgeons were working on the wounded.

Brownwood hurried her second relief train at noon yesterday loaded with provisions, clothing and necessary articles and forty nurses.

Last night three persons were still unaccounted for. Two children were found dead late in the afternoon two miles out from the town, having been blown that distance.

A special train left Zephyr last night for Temple, carrying the more seriously injured to the hospital.

Storm Had Narrow Path.

The storm was 300 yards wide and swept the earth for only a short distance, probably less than a mile. Its fury is considered the most terrific of any tornado ever experienced in this section.

J. I. Clingman, C. E. Kirkpatrick and nine surgeons, who formed the first party out of Brownwood, found a desolate scene awaiting them.

The hillsides at Zephyr were covered with debris of all kinds and bodies of dead animals and human beings. The ruins were dimly lighted by the burning buildings and the cries of the wounded rose above the sound of the elements, which threatened a second storm. A hog roaming through the debris-strewn streets was killed while attempting to devour the body of an infant. Bodies were found twisted about trees and in every conceivable spot. People walked the streets almost naked, crying for their loved ones. Residences which escaped the storm were turned into hospitals, where were carried the bodies of the dead and wounded.

One house collapsed on a family of nine without serious injury to any.

Brownwood, with splendid organized relief work, has the situation well in hand.

CUTTING AFFRAY AT PARADISE MONDAY

TWO NEGRO WOMEN ENGAGE IN FREE FIGHT.

Warrants Issued and Parties Arrested, But Trial Postponed Until Next Friday.

From Wednesday's Daily:

Electie Peeples, a negro woman of Paradise, was arrested and brought here yesterday charged with seriously stabbing another colored woman by the name of Rachel Johnson, also a resident of Paradise.

It seems that the women both conduct restaurants or boarding-houses for the colored laborers of the mill and they became jealous over the boarders, with the result that they became involved in a general fight that terminated with the above occurrence.

Owing to the weak condition of the woman that was stabbed, the case could not be called Tuesday, but the witnesses have all been subpoenaed and the case will come up for hearing before Judge Mason on Friday, provided the injured woman is able to attend.

In the meantime Electie will spend the time behind the bars, as she was unable to give bond for her appearance.

It has been only a short while since these two women were engaged in a similar scrap, but it did not reach the climax of the present melee, for no razors or knives were used.

LOCHLOOSA NOTES.

LOCHLOOSA, June 1.—F. M. Coleman, a progressive merchant, returned home Saturday from the district conference at Micanopy.

J. C. Casteen has moved to Hawthorn to work on the A. C. L. section gang.

Rev. B. T. Rape filled his appointment here at the Methodist church Sunday. He preached an educational sermon, and it was enjoyed by all present.

Miss Cornelia Martin, one of Cross Creek's charming young ladies, returned home Monday after a pleasant stay with relatives and friends.

Mrs. Mattie Brinson of Dexter, Fla., is up spending a while with relatives.

J. J. Haymans of Gainesville was down looking after his business interests Friday.

J. D. Caldwell returned home Saturday after a pleasant stay with friends and relatives at Micanopy.

Mr. and Mrs. C. V. Fowler entertained the young folks Friday evening in the way of a social. There were thirty-six present. The house was artistically decorated with ferns, palmettos and flowers of many different kinds. Many games were played, and all present greatly enjoyed themselves. The weather was fine which made it all the more pleasant. At 10:45 o'clock the guests bid their host and hostess goodnight, thanking them for the very enjoyable evening.

A. C. Hayman has been on a visit from Reddick. He returned Thursday.

The following is taken from a Madison county paper:

"Mr. Samuel Shaw and family, who, maybe all their lives, have lived in the Moseley Hall section of the county, leave this week for Hawthorn, in Alachua county, where they will make their future home. The removal of such a family is to be regretted. Mr. Shaw, for the past two years, has been one of our county commissioners and his official acts have met the approval of his constituents. The friends of the family greatly regret the removal and Alachua county will be the gainer in securing Mr. Shaw and his family as citizens and residents. May good luck attend them."

Accidents will happen, but the best-regulated families keep Dr. Thomas Electric Oil for such emergencies. It subdues the pain and heals the hurts.

BEAT HIS WIFE.

Also Broke Up All of the Household Furniture Monday Night.

From Wednesday's Daily:

Henry Thomas "got bad" from too much booze on Monday night and endeavored to kill his wife, besides cleaned up all of the household effects of his home.

The woman made an exit before he landed many blows upon her, but those he did administer showed that he meant to handle her badly, as she is bruised and otherwise injured.

After the difficulty and the wife had left, he also took a sneak, and up to last night had not been located by Marshal Arnow or Policeman Owens.

NEWS OF CITY AND COUNTY CONDENSED

MATTERS OF GENERAL INTEREST SECURED BY SUN REPORTERS.

What Has Happened and What is Going to Happen—Personal and Social Items of the City.

From Tuesday's Daily Sun:

Five or 6 doses "666" will cure any case of Chills and Fever. Price 25c.

W. G. Sanders of Trenton, a merchant of that place, is among the visitors to the city.

Miss Allie Belle Spencer, who has been visiting in the city for the past few days as the guest of Miss Avice Walker, returned to her home at Welborn yesterday.

Judge Mason has started off briskly for June marriages by issuing two licenses yesterday—E. W. Donegan to Miss Gracie Geiger, and Robert B. Baker to Miss Katharine Johnson.

Misses Ena and Grace Macginnes were shopping in the city yesterday from their home at Hawthorn. They will spend the next few days at McIntosh on a visit to friends and relatives.

Mrs. M. E. Macginnes of Hawthorn was among the visitors here yesterday. She was en route to McIntosh and will spend the next few days there visiting her daughter, Mrs. Q. E. Means.

Rev. Joseph Boothby of Cedar Key was among the visitors here yesterday, being en route home. He has been visiting at Micanopy and Waldo, and at the latter place has an extensive building contract.

'Dolph Chamberlin, old good-natured 'Dolph of Tacoma, was circulating among his Gainesville friends yesterday. He not only always wears that "smile that won't come off," but the lucky season has made it greater.

Mrs. H. E. Townsend and Miss Clara Sharman returned to their home at Hawthorn yesterday after several days spent in this city. They came to attend the Sunday school convention of the Santa Fe Baptist Association.

Miss Nannie Lawson of Forsyth, Ga., who has been spending the past winter here with the family of W. H. Cassels, departed yesterday for her home. She made a large circle of friends who will be pleased to again welcome her to the city.

G. W. Marble of Newberry arrived in the city yesterday and will spend a short while meeting his numerous friends here. Until a few years ago he was a resident of Gainesville but decided that his health would be better by "living among the pine trees."

W. P. Shettleworth, one of the largest melon growers of this part of Florida, was transacting business in the city yesterday. For a number years he conducted a very successful and profitable farm near Rochelle but removed to Evinston, where he is similarly engaged.

Mrs. C. J. Haigler of Haynesworth, Ala., who has been visiting her sister, Mrs. T. B. Ellis, Sr., left yesterday for Old Town and will spend the next few weeks in that part of the State before returning to her home. She was accompanied by Mesdames Callie Reddick and Chaires, both of whom have also been visiting at the Ellis home, forming a reunion of all of the sisters.

From Wednesday's Daily Sun:

J. D. Merry of Micanopy was a visitor to the city yesterday.

M. A. Shaw of Fairbanks was among the visitors to the city yesterday.

R. F. Ormond of Windsor was among the visitors to the city yesterday.

Hon. J. A. Rosborough and wife of Windsor were visitors to the city yesterday on a shopping expedition.

John Holly, the enthusiastic vegetable grower and merchant of Arredondo, was here yesterday looking after business matters.

Geo. L. Taylor, superintendent of the Gainesville Peach Orchard at Palmer, was in the city yesterday attending to business matters.

H. C. Bealey of Alachua was in the city yesterday. He was en route to Ocala to be present at the annual meeting of the Confederate veterans.

J. M. Spivey, one of the old Confederate veterans of this city, was among the passengers to Ocala yesterday to attend the reunion at that place.

Mrs. T. M. King and little son of Windsor were in the city yesterday visiting her husband, the popular agent of the Southern Express Company.

E. A. Osteen of LaCrosse was among the business visitors to the city yesterday. He is engaged in the blacksmith business at that place and has a most flourishing business.

A. J. Feaster, who is superintending one of the road gangs in the northern part of the county, was here yesterday to be present at the meeting of the county commissioners.

Rev. Geo. T. Taylor of High Springs is among the visitors to Gainesville. He has now engaged in the insurance business and states that he is meeting with fine success.

W. S. Jackson of Lake View visited Gainesville yesterday. He states that his section has had several nice showers during the past week, but rain is still badly needed for the growing crops.

The Board of County Commissioners are now in session and it will be about Thursday before they complete their labors of auditing bills and attending to other business that will come before them.

T. B. Pearson and wife of Archer were among the visitors here yesterday. They were en route to Leesburg and will spend the next several days in that city visiting their daughter, Mrs. H. Driver.

Mrs. J. S. Crown has returned from Mayslanding, N. J., to which place she was called on account of the illness and subsequent death of her father, J. P. Taylor, who lived only a short while after her arrival in the Eastern city.

J. K. Feaster of Rochelle was circulating among his numerous Gainesville friends yesterday. This was his first visit here in several weeks and he states he has been kept pretty busy at home looking after his business affairs.

A. F. Scott of Hague was among the visitors here yesterday. He is proprietor of the ginnery at that place and does a large business every season, but is of the opinion that it will be very light the coming season unless the farmers have good rains.

William Wilson and family of Alachua have arrived in the city and will make this place their future home. Mr. Wilson will follow his profession as carpenter and has made all arrangements to go to work as soon as he can get his family located.

C. V. McQueen of Newberry, one of the prominent citizens of that part of the county, was in the city yesterday. He states that the roads are very dry and the farmers are needing rain as they never needed it before, their corn crops looking as if they were burning up.

Capt. and Mrs. T. B. Tower of Dutton arrived in the city yesterday and will spend the next few days here visiting the family of Col. I. E. Webster, North Gainesville. Capt. Tower is the superintendent of the Mutual mines at Dutton, which concern is owned largely by J. R. Williams.

Mrs. J. M. Rivers and little son left yesterday for Hawthorn and will spend the next several days in that place visiting her sister, Mrs. J. J. Godwin.

Wanted, in good condition, a copy of The Twice-a-Week Sun of Thursday, May 6th. Will pay 10 cents for first copy of this date left at this office.

A. W. Leighton, a former citizen of Gainesville but who is now making his home at Jacksonville, arrived here yesterday to look after his property interests.

Mrs. J. W. Wells and children will leave today for Virginia, in which State they will spend the next several weeks visiting relatives and enjoying the exhilarating climate.

W. W. Carman of Archer was a visitor to Gainesville yesterday and while here made a pleasant call at this office and subscribed for the leading county paper for a year.

Mrs. W. E. Baker and children, who have been visiting for the past few weeks at Lakeland, the guests of the former's sister, Mrs. McGriff, returned to their home in this city yesterday.

Mrs. Ben Mason will leave today for Reidsville, N. C., to spend the next several weeks visiting relatives and friends. She will be accompanied as far as Jacksonville by her husband.

E. F. Pope, a contractor of Micanopy, was transacting business here yesterday. He states that building is picking up in his section and much improvement will be made during the present summer.

Sam Pardue, who is running as express messenger from Jacksonville to St. Petersburg, arrived in the city yesterday and will spend a short while here visiting the family of N. Wells, North Gainesville.

Col. W. W. Hampton has returned from a short business visit to Tallahassee. He states that he met the various members of the Legislature and all were well with the exception of Senator McCreary, who had been "ailing" for the past several days, but had not been absent from his duties.

Anyone subject to any form of eye trouble, nervousness, headaches, etc., should consult Dr. Armstrong on his next visit to Gainesville, as it is a known fact he has perfected many wonderful cures without drugs, and straightens cross-eyes without knife. Office, Brown House—one day only, June 8th.

THE NEWS FROM ARCHER.

T. A. Duren Elected Mayor—Personal and Social Notes of Interest.

ARCHER, June 2.—Mr. and Mrs. T. B. Pearson left yesterday afternoon for a month's visit to relatives at Leesburg and Bradentown.

Mrs. Emma Hughes and daughter, Miss Grace, left Saturday morning for a couple of months' visit to the former's daughter, Mrs. Hester, at Tampa.

Mrs. A. K. Wilson and children, who have been the guests of her brother, Ed Stewart, at the Magnolia House, left Thursday morning for their home at Fort Pierce.

Mrs. J. T. Fleming, mother of Messrs. S. T. and Guy Fleming, two of our most successful merchants, left yesterday morning for a short visit to her daughter, Mrs. O'Donald is at Jacksonville. Mrs. O'Donald is expected to return home with her mother and will spend several weeks here.

W. J. Groves of Morriston visited our city on business Friday.

Victor Sharpey of Cedar Key was in our midst Saturday.

Mrs. J. H. Butler, who has been the guest of her daughter, Mrs. G. R. Leynes, for several days, left Friday for her home at Hernando.

W. H. Stephens, our popular S. A. L. agent, visited Jacksonville Saturday on important business.

Will Devisne, the competent machinist of the Cummer Lumber Co. at Tioga, was a business visitor here Monday.

Miss Laura Means arrived Monday from Mikesville and will be the charming guest of Rev. and Mrs. H. H. Newman for a few days.

J. B. Dale, the valuable foreman of the Maddox Foundry and Machine Co., visited Jacksonville Sunday and Monday on important business.

Mrs. G. W. Livingston of Newberry arrived here Tuesday to join her husband, who is prospecting the old mines out here.

All the young people of Archer gathered together last evening at the home of Mr. and Mrs. M. Venable and enjoyed an old-fashioned chicken pillau. All report a delightful time, as is always the case when this young couple entertain.

T. A. Duren was elected mayor of Archer yesterday. He is popular in business circles and socially, and we know he will make us a good mayor.

The fire which destroyed the store of C. W. Bauknight Monday morning did not burn the undertaking branch of the business, as it is located in another part of town. The stock that was burned would probably invoice from $12,000 to $15,000. Mr. Bauknight was the oldest merchant in town, having commenced business on April 1st, 1875, this being the first misfortune to have overtaken him. Mr. Bauknight does not know whether he will rebuild or not.

ECLIPSE OF MOON TONIGHT.

The total eclipse of the moon will occur during this evening and remain totally obscured for about an hour in this section of the country.

This year the moon does not enter into the heart of the earth's shadow, so there will not be a black eclipse. The moon, however, will be in the shadow of the earth for over an hour and practically the only light from the heavens will be that of the stars.

KILLED BY EXPLOSION OF CYLINDER HEAD

TWELVE-YEAR-OLD SON OF MILL FOREMAN AT RALEIGH.

Arm Blown Off and Hole Made in Head by Piece of Shattered Iron.

The little twelve-year-old son of Mr. Phillips, the mill foreman for T. J. Cone at Raleigh, met with an accident Tuesday which cost the little fellow his life.

The cylinder head of the large engine used at this plant blew off and the little fellow was standing within about ten feet of the machine and received the effects of the escaping steam and fragments of the broken parts.

One piece of the iron entered his temple and went into the brain, while another struck his arm, tearing it completely away, and the hot steam scalded him so much that he died from the effects of the wounds in the afternoon.

No reason has been assigned as to the cause of the explosion, but the affair is deeply regretted by Mr. Cone and all the employes of the mill. The little fellow was accustomed to staying about the place during his leisure moments and happened to be in this position at the time of the explosion.
